About Taylor College

History
Established in 1999, Professional Health Training Academy offered educational training in healthcare to residents in Central Florida. In 2005, the institution understanding the importance of offering quality education to the community, undertook the extensive process of earning accreditation. In 2006, the institution was granted Accreditation from the Commission of the Council on Occupational Education.

The institution experienced significant growth in 2008, changing its name to Taylor College to accurately reflect the mission and programs offered to the community. That same year, classes were offered at the newly established Bellevue Campus. In 2010, Taylor College expanded the educational opportunities available to students by offering Associate Degree programs and classes through distance learning.

Mission Statement
It is the mission of Taylor College to assist all students in obtaining the knowledge, skills and work habits needed to succeed in both the public and private sectors. Our programs provide students with specialized training in career fields that offers employment opportunities. By recognizing that every student possesses his or her own unique aptitudes we assist the student in developing those aptitudes to a level of employability.

Vision
It is the vision of Taylor College to be the College of choice within our servicing area.

Facility Description
Taylor College’s campus is located in Bellevue, Florida on five acres with 10,600 square feet of learning and working space. The campus includes five classrooms, two skills laboratories, administrative and faculty offices, a library, a computer lab and student and employee lounges.

Institutional Laboratory, Library and Equipment
The college has a library and computer lab on campus for student and faculty use. There are two skills laboratories with hospital beds, medical and rehabilitation equipment, and supplies sufficient for training in the programs offered by the College.

Statement of Ownership
Taylor College is a private institution incorporated under the laws of the State of Florida. Taylor College’s Parent Corporation is Hispania Private Equity II, LP and operates as Taylor College, Inc. as a private institution incorporated under the laws of the State of Florida.

Board of Directors
Diana Hammond, Taylor College President

Taylor College is a private institution incorporated under the laws of the State of Florida.
Introduction from the President

Welcome to Taylor College. As you begin your educational journey here with us, know that the administration, staff and faculty at Taylor College are committed to your success by providing a high-quality education to our students. For more than 12 years, we have trained and educated students, expanded their abilities and knowledge, and watched them graduate to continue on and make a difference in other’s lives. Whether you are a prospective student, community leader or one of our alumni, I encourage you to invest in yourselves, never give up and learn everything possible to achieve your goals. Know that you can never stop learning.

I am extremely proud of our College and the foundation of excellence that we have continued to build on throughout the years. Whether it is today or in the future, I welcome you to explore all our College has to offer.

Diana Hammond
President
General Information

Accreditation, Licensure and Memberships
Taylor College is accredited by Council on Occupational Education. Additional information regarding the College can be obtained by contacting the Council at 7840 Roswell Road, Building 300, Suite 325 Atlanta, GA 30350 or call 770-396-3898, fax 770-396-3790 or visit www.council.org.

The Physical Therapist Assistant program at Taylor College is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 1111 North Fairfax Street, Alexandria, VA 22314; telephone: (703) 706-3245; email: accreditation@apta.org; website: http://www.capteonline.org. The program's current status is probationary accreditation; for more information see http://www.capteonline.org/WhatWeDo/RecentActions/PublicDisclosureNotices/.

Taylor College is licensed by the Florida Department of Education, Commission for Independent Education. Additional information regarding the institution may be obtained by contacting the Commission at 325 West Gaines Street, Suite 1414 Tallahassee, FL 32399-0400, toll-free telephone number (888) 224-6684.

Status of Professional Nursing Program at Taylor College: Pursuant to Statute 464.019 (6) and Chapter 120, FS our Professional Nursing and Licensed Practical Nurse to Associate Degree Nurse Bridge programs have been placed on probationary status. This status will be valid for two calendar years or until Taylor College achieves a graduate NCLEX passing rate that equals or exceeds the requirements of the Florida Board of Nursing for either calendar year.

As a result of this status, Taylor College has implemented the Assessment Technology Institute Comprehensive Capstone Review (ATI) for our nursing students. This integrated learning platform has proven to be effective for first-time NCLEX test-takers who successfully complete all components of the ATI review and receive the “go ahead or green light” from their ATI coach, thus resulting in students becoming licensed and employed. It is the student’s responsibility to comply with ATI by submitting all assignments and completing the NCLEX boards immediately following approval from ATI.

This probationary status will have no effect on the Professional Nursing and Licensed Practical Nurse to Associate Degree Nurse Bridge students when applying for the NCLEX. Upon graduation, all students remain eligible to apply for the licensing exam.

The Professional Nursing, Licensed Practical Nurse to Associate Degree Nurse Bridge and Practical Nursing programs offered by Taylor College are approved by the Florida Board of Nursing.

Taylor College has been approved for Veteran’s training by the Florida Department of Veterans’ Affairs, Bureau of State Approving Agency for Veterans’ Training. Taylor College is a Service Members Opportunity College.

Admission’s Office
The Admission’s Office is responsible for assisting students during their enrollment process. Students should communicate with the Admission’s Office during the enrollment process including completing and submitting admission requirements and their enrollment status.

Bursar’s Office
The Bursar’s Office is responsible for posting tuition and fees to a student’s account, creating overpayment checks for students, calculating refunds and setting up payment schedules. Students should communicate with the Bursar’s Office if they have questions regarding any charges to their account or overpayment checks.

Financial Aid Office
The Financial Aid Office is responsible for determining a student’s eligibility, processing and awarding of financial aid for those who qualify. Students should communicate with the Financial Aid Office if they have questions regarding their financial aid.

Registrar’s Office
The Registrar’s Office is responsible for maintaining student records including grades, attendance, transcripts and other documentation related to the student’s education. Students should communicate with the Registrar’s Office if they have questions regarding their attendance or student records.
Anti-Hazing Policy
It shall be the policy of the College to strictly prohibit any action or situation which may recklessly or intentionally endanger the mental, physical health or safety of its students for the purpose of initiation or admission into or affiliation with any organization operating under the sanction of the college. This policy applies to any student or other person who may be associated with any student organization. Violation of this policy may result in disciplinary action including but not limited to suspension and/or termination from the institution or employment. The institution’s President shall be responsible for the administration of this policy.

Taylor College provides employees, prospective and/or enrolled students with its current Statistical Report for Campus Crime, as well as a Campus Crime and Safety Handbook. Information about the statistical report for campus crime, drug and alcohol policies and Violence Against Women Act (VAWA) can be accessed by visiting college’s website at http://www.taylorcollege.edu/campus-safety/.

Attendance Policy
Regular, punctual attendance is the responsibility of every student who enrolls at Taylor College. The College is committed to enforcing the attendance policy in an effort to assist students in achieving their educational objectives. Documentation of student absences will begin the first day of class. Class participation is a significant measure of performance, and non-attendance can adversely affect a student’s grade. Students are expected to adhere to specific attendance as listed in the program handbook.

Community Service
Community involvement is a strong belief at the College. Students are required to participate in community service activities during their enrollment in order to participate in the graduation ceremony. Students are expected to adhere to specific community service hours based on their program of enrollment.

Consumer Content
For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.taylorcollege.edu/consumercontent/.

Dress Code Policy
Students are expected to adhere to specific dress code requirements based on their program of enrollment.

Drug and Alcohol Policy
Taylor College is committed to the development and implementation of a comprehensive drug-free program in order to create a cost-effective, safe and healthy workplace and school. Therefore, the institution has adopted a “Drug-Free Program” in compliance with the Drug-Free Workplace Act of 1988 and the Drug-Free Schools and Communities Act Amendment of 1989 (including Section 22, Drug-Free Schools and Campuses). This program is consistent with guidelines developed by the Substance Abuse and Mental Health Services Administration (SAMSHA), and is intended to cover both employees of the College and students who are attending classes and working in clinical rotation sites and other College-arranged workplace experiences.

Use or possession of alcohol and illegal use or possession of illicit controlled drugs, or being under the influence of these substances while students are on school premises or while engaged in institution-sponsored activities off-campus (e.g., clinical rotations) is prohibited. No student shall report to class or a part of its off-campus activities while intoxicated, impaired, or under the influence of drugs or alcohol. Because Taylor Colleges believes that substance abuse is harmful not only to the abuser but also to those individuals in his or her presence, and because there are personal and professional consequences for use of alcohol and controlled substances, students will be required to execute the Taylor College Drug and/or Alcohol Random Testing Consent Form for drug testing consistent with the College’s policies as set forth herein. Students who are selected for testing, tests will be conducted for six specific categories of drugs, including marijuana, cocaine, opiates, phencyclidine (PCP), amphetamines, and alcohol, and may include other drugs, including hydrocodone (Lortab, Vicodin), barbiturates, methaqualone (Quaaludes), methadone, benzodiazepines (e.g., Valium), MDMA (ecstasy) and propoxyphene (Darvon). Test results will not be disseminated other than to those persons who need to know, and to the greatest extent possible, certified laboratories will be used, possibly at student expense.
Students
In compliance with the Drug-Free Schools and Communities Act Amendment of 1989, Taylor College prohibits the unlawful possession, use, or distribution of illicit drugs and alcohol by all students. No student shall be on college premises or a part of its off-campus activities (i.e., clinical rotations) while intoxicated, impaired, or under the influence of illegal drugs or alcohol. A drug test may be ordered for cause, e.g., behavior suggestive of use of alcohol or controlled substances, substance abuse, or an unexplained deterioration in a student’s academic performance. Students may be required to comply with random or scheduled substance testing at a cost which may be deferred to the student. If the individual refuses to consent to such testing, refuses to execute all forms of consent and release of liability as are usually and reasonably attendant to such examination, refuses to authorize release of the test results to Taylor College, test results establish a violation of the College’s Drug and Alcohol Policy or otherwise violation of this policy will result in being denied enrollment into the College, or other disciplinary action up to and including dismissal from the College. The College may also report alleged violations to local law enforcement authorities for investigation and prosecution as appropriate.

Student Smoking Policy
Taylor College is a smoke-free environment. Smoking and nicotine products are not permitted by staff, faculty or students on campus grounds, including clinical sites. The intent of this policy is to reduce risk to students, employees, and guests of the College of second-hand smoke and fire. When staff, faculty or students are smoking, they must do so off campus.

Inclement Weather
In the event that class/clinical must be canceled due to inclement weather, Taylor College will contact the student via phone and/or email to notify the student. Class/clinical make-up dates will be made on a case-by-case basis.

Sexual Harassment Policy
Taylor College will not allow any form of sexual harassment or any such conduct that has the purpose or effect of interfering with an individual’s work performance or a student’s learning; creating an intimidating, hostile, or offensive work or training environment which include comments, gestures, etc. Such conduct, when experienced or observed, should be reported immediately to the Campus Manager. A Sexual Harassment Form must be filled-out. After the form has been completed, an investigation will occur as confidential as possible. Adverse actions will not be taken against a student or employee who reports or participates in the investigation of a violation of this policy.

Arbitration Clause
As stated on the Taylor College Application for Admission, it is agreed that, in the event the parties to the enrollment agreement are unable to amicably resolve any dispute, claim or controversy arising out of or relating to the agreement, or if a claim is made by either against the other or any agent or affiliate of the other, the dispute, claim or controversy shall be resolved by binding arbitration administered by JAMS. If this chosen forum or method of arbitration is unavailable, or for any reason cannot be followed, a court having jurisdiction hereunder may appoint one or more arbitrators or an umpire pursuant to section 682.04, F.S. Each party shall have the right to be represented by an attorney at any arbitration proceeding. The expenses and fees of the arbitrator(s) incurred in the conduct of the arbitration shall be split evenly between the parties to the arbitration. However, if Taylor College prevails in the arbitration proceeding, Taylor College will be entitled to any reasonable attorney's fees incurred in the defense of the student claim. The venue for any proceeding relating to arbitration of claims shall be in Marion County, where the institution is located. This agreement cannot be modified, except in writing by the parties.

Availability of Catalog
The Student Catalog is available to all students, prospective students and other members of the interested public via the College website at http://www.taylorcollege.edu/student-catalog/ and printed copies are available upon request.

Leave of Absence (LOA)
There is no provision for a Leave of Absence. A student who cannot continue must withdraw and re-apply to the program at the next available enrollment date.
Termination from Program
Students may be dismissed from the institution for any of the following reasons:
• Violation of attendance required for program.
• Failure to maintain satisfactory academic progress (SAP).
• Failure to meet the school’s financial obligations.
• Disruption of school activities that includes classroom, clinical or campus.
• Misconduct or Cheating.
• Violation of any of the institution’s policies.
• Failure to comply with staff/faculty directives.
• Unprofessional conduct/pattern of behavior that deviates from normal.
• Breaking smoking/dress code/alcohol/drug policies set by the Institution.
• Sexual misconduct/harassment.
• Not meeting the clinical/lab expectations set by the school.
• Allowing children or visitors during classroom or clinical/externship time.
• Refusal to complete or failure of a requested drug screening test by a college and/or clinical employee.
• Derogatory or defamation publishing about or regarding the college via social and/or printed media

Student Code of Conduct
Any act or behavior on the part of the student that does or could damage, tends to impair, interfere with, or otherwise interfere, disturb or obstruct the orderly conduct, processes, functions, and/or interests of the College is expressly prohibited. In addition, if a student violates any federal or state laws while enrolled at the College, this is grounds for immediate dismissal. Such acts or behaviors may include, but are not limited to the following:

• Consumption of alcoholic beverages on campus or at a College function.
• Illegal use, possession or sale of illegal drugs, narcotics or other controlled substances.
• Acts of dishonesty, including but not limited to the following: Cheating, plagiarism, or other forms of academic dishonesty.
• Interference with the teaching and learning process.
• Furnishing false information to any College official, faculty member, or any entity of the College.
• Forgery, alteration, or misuse of any College document, record or instrument of identification.
• The use of indecent or abusive language on campus or at a College function.
• Gambling on campus or at a College function.
• Hazing on campus or at a College function.
• Falsification of any record associated with the College.
• Unauthorized use of the College name.
• Lewd or indecent behavior.
• Violence against any member or guest of the College.
• Theft, vandalism or willful destruction of College property or of the property of members or students of the College.
• Interference with the freedom of movement of any member or guest of the College.
• Obstruction or disruption of the normal process and activities of the College.
• Deliberate interference with the rights of others.
• Sexual harassment, bullying, battery or assault.
• Accessing, altering or deleting College computer files/systems.
• Stalking (to repeatedly follow another person so as to put that person in fear for his/her safety).
• Violation of the College’s Computer Usage policies.
• Trespassing.
• Bomb Threats.
• Unauthorized possession, duplication or use of keys to any College premises or unauthorized entry to or use of College premises or properties.
• Improper conduct while at a clinical facility.
• Failure of a College or Clinical Affiliation drug testing.

Cell Phone Usage
Cell phones are not permitted in the classroom or at clinical sites. At the discretion of the Instructor you will be sent home for the day and marked absent if your cell phone disrupts the class/clinical or you are talking on the phone.

Cell phones are not permitted in the classroom or at clinical sites. If your cell phone disrupts the class/clinical, it will be the discretion of instructor to send the student home for the day. If a student is sent home they will be marked absent for the entire day.
Health Occupation Programs
Acts which constitute grounds for denial of a license or disciplinary action as listed in Florida Statutes s. 464.018, and/or Florida Statutes s. 456.072(2), as well as violations of federal, state law, or local ordinances which directly relate to the healthcare practice are grounds for non-acceptance and/or dismissal from a program. Repeated or cumulative acts which are not offenses listed in above statutes, may still constitute grounds for disciplinary sanctions. Disciplinary sanctions may also be imposed by the College for any other offense reasonably deemed to be contrary to the best interest of the college and which directly relates to the healthcare practice, or the viability of the College’s program.

Use of Social Media

- Do not post confidential or proprietary information about the College, its students, employees, or alumni. All persons must follow the applicable federal requirements such as FERPA and HIPAA. Students and staff must adhere to all applicable institutional and legal privacy, confidentiality and property policies and laws.
- Postings which are potentially slanderous, libelous or defame the integrity, character, and conduct of other students attending the College are prohibited. Postings which include profanity, racist, sexist, or derogatory remarks, content that incites hate or disrespect for other students, will be considered detrimental to the interest of the College. Such postings can have the effect of demeaning students who are in the process of being successful in their educational goals and therefore such postings, even if posted on websites, blogs or other social media outside the College will not be tolerated and can be grounds for disciplinary action, including termination.
- Similarly, postings which are potentially slanderous, libelous or defame the College, its staff or faculty, impugning the quality of education or the operation of the College are prohibited. Postings which include profanity, racist, sexist, or derogatory remarks, content that incites hate or encourages unethical or illegal activities, comments on litigation involving the College, spam and off-topic remarks, will be considered detrimental to the interest of the College. Such postings can have the effect of minimizing the goals of the College in meeting the needs of its students. Postings placed on websites, blogs or other social media outside the College will not be tolerated and can be grounds for disciplinary action, including termination.
- No user may establish social networking sites that use the College logo or other intellectual properties such as photography, video, artwork, and publications copyrighted to the College without authorization from the College. It is a violation of social networking site policies to represent an institution without authorization.
- Students should consider their particular audience, message and group goals and have a strategy for keeping information on their social media sites up-to-date and accurate.
- Take care not to post private information concerning others such as an e-mail from a fellow student or contact information. Please exercise good “netiquette.” Social networks are in the public realm and are not appropriate venues for the discussion or dissemination of private matters.

Sanctions
Listed below are the sanctions that can be placed against a student who is found in violation of the Student Code of Conduct. Students may receive additional sanctions at the discretion of their Program Director.

- Warning: A notice in writing that additional violations of the College’s rules may result in more severe disciplinary action.
- Suspensions: Students can be suspended from access to the College and its educational activities for a period of one or more days.
- Restitution: Student shall reimburse the College for damage to or misappropriation of College property.
- Filing a report: Filing a police report with local law enforcement.
- Dismissal: Students may be dismissed from their current enrolled courses and program.

Parking
Since Taylor College is primarily a commuter's college, parking and traffic regulations must be maintained for the protection of employees, students and guests. Students must park in authorized parking spaces, and must not park in areas designated for the handicapped (unless possessing the appropriate licensure), on sidewalks or in “no parking” areas. Violators are subject to having their vehicle towed without prior warning or formal notification. Students can also be charged a fine and/or be responsible to pay for any fees charged to recover said vehicle from towing lot.
Comprehensive NCLEX Review
Nursing students are required to participate in a comprehensive capstone review course while enrolled in the program; the online coursework will start the first semester and include on-campus study groups, modular study, assessments, tutorials and active learning remediation. Students must complete all assigned course work in the documented timeline utilizing resources designed to enhance student academic and NCLEX success. Assessments may count for up to 30% of a students’ course grade except in NUR2801. Students who are not progressing satisfactorily in this comprehensive review may at the discretion of the Instructor or Director be assigned additional coursework/homework to be completed prior to program completion.
Academic Information

Grading Scale
The grading policy will be given to students at the beginning of each class which will include the following grading scale. At the end of the semester a final grade will be assigned and recorded as part of the student’s permanent record.

All programs listed below will use the following grading scale for all classes, General Education and Core:

- Professional Nursing
  - Paramedic Option
  - LPN Option
- LPN-ADN Bridge
- Physical Therapist Assistant
- Practical Nursing
- Medical Assisting
- Pharmacy Technician

Attendance Progress
Students must attend a minimum of the cumulative scheduled hours to maintain SAP and complete the course within the maximum allowed period of 150% for all programs. All absences are recorded and made a part of the school permanent record. It is the responsibility of each student for being on time for every class/clinical/lab, tardiness is not acceptable. Students are allowed only 2 (two) absences in theory/lab and only 2 (two) absences in clinical for all Nursing Programs. The Physical Therapist Program students are allowed only 3 (three) absences in theory/lab per semester. Any clinical absences are required to be made-up prior to the end of the semester. Any additional absences beyond the allowed mentioned above will result in the student being withdrawn from the program. Leaving early and/or coming late will be documented as ½ absences. Documentation of student absences will begin the first day. The College reserves the right to evaluate individual cases of non-attendance. Participation is a significant measure of performance, and non-attendance will adversely affect a student’s grade.

Withdrawal from Program
A student who is enrolled into a program and wishes to withdraw from the program must meet with a school official to discuss the matter, submit a typed letter of intent to withdraw, and complete an exit interview and other criteria listed under Admission Requirements, Guidelines for Readmission and Transferring into Another Program. This process must be done if the student wants to re-enter a program at Taylor College.

Family Educational Rights and Privacy Act
Taylor College complies with the Family Educational Rights and Privacy Act of the 1974 Buckley Amendment, Public Law 93-380, and Section 438. The President reserves the right to allow any instructor associated with the training program to review student records.

College Email Account
Upon enrollment, students enrolled in a Diploma or Associate Degree program are given a college-issued email account. Students are required to use this email in a manner that is appropriate to the role of a student and a responsible member of society. The College reserves the right to deny access or delete any college-issued email at any time and without cause. Additional information can be found at the Learning Resources section in this catalog. All classwork/homework correspondence will be communicated through this email address only.
Directory Information
The Family Educational Rights and Privacy Act has specifically identified certain information called directory information that may be disclosed without student consent. Students have the right to prevent disclosure of Directory Information; these requests must be provided in writing by completing the Non-Disclosure of Directory Information form and returned to the Registrar’s Office.

The following information can be released unless the student has submitted a request for non-disclosure:
Name, Telephone Number, Email Address, Student Photo, Dates of Attendance, Degrees Earned (with dates), Academic Honors and Awards, Major Field of Study, Expected Date of Graduation, Previous Schools Attended, Enrollment Status (class level), and Currently Enrolled (yes or no).

Transcripts
Transcripts will be provided when a student has paid all of their financial obligations to the College. Students must complete the Official Transcript Request Form or a Document Request Form and pay the required fee of $5.00 for each transcript or document being produced. This fee is charged to all students requesting an official transcript. The College reserves the right to withhold official transcripts from students under certain circumstances such as having an outstanding financial obligation to the College.

The following items are listed on the Document Request Form: admission requirements, admission test scores, and student’s personal information (i.e. social security card, diploma, immunization record).

NOTE: Transcript can only be mailed or picked up from campus. Faxing transcripts are prohibited.

Transferring-In Credits
A student who has earned credits and request to have these credits transferred to Taylor College, or have credits from a program transferred to another program within Taylor College, must meet the criteria below. Taylor College reserves the right to accept or deny transferring of credit.

The School will count all transfer hours that apply toward the student’s current program in determining Satisfactory Academic Progress. All transfer hours will be counted as both hours attempted and hours completed.

- Students requesting transfer in credit must submit official transcript(s) from all institution attended to the Admissions Department for review at least 60 days prior to the start of the program. The transcript(s) will be analyzed for appropriate transfer in courses.
- Students wishing to repeat a course that has been qualified to transfer in to Taylor College must complete a Transfer Waiver Form no later than 30 days prior to the start date of the course.
- Transferring of credits must have been earned from an accredited institution.
- No more than 75% of any program may be transferred into Taylor College.
- Any student holding a minimum of an Associate in Arts degree from an accredited institution fulfills the general education requirements. The general education coursework will be transferred as a block.
- Any student that has completed Associates in Science or Bachelors can apply to transfer in general education courses on a course by course basis. Students must have received a minimum of a "C" in the course, in order to qualify to transfer in.
- Students transferring in individual credits must have received a minimum of a "C" in the course in order for it qualify to transfer in.
- College core credits being transferred in must have been earned within six years from the start date of the program at Taylor College. (No CLEP option allowed)
- Individual college general education credits being transferred in must have been earned within six years from the start date of the program at Taylor College.
- College general education credits that have been earned as part of a conferred degree are considered as eligible to transfer regardless of date completed.
- For general education credits earned more than six years from the start date of the program at Taylor College, a score of 50 (equivalent to a “C” grade) on an appropriate CLEP exam may be used
  - A credit by examination may be taken only once for each course
  - If a student has already attempted the course, as indicated by a posted W or “F” grade, no test out attempt will be allowed

Taylor College recognizes the following college equivalencies:
  - Advanced Placement (AP) examinations administered by The College Board; A score of 3 or higher is required. (Applicable to General Education coursework only). Official transcripts must be submitted from Advance Placement. College-Level Examination Program (CLEP) examinations administered by The College Board; A score of 50 or higher is required. (Applicable to General Education coursework only)
  - Advanced International Certificate of Education (AICE) examinations administered by Cambridge University. A score of A-E is required. (Applicable to General Education coursework only)
  - International Baccalaureate (IB); (Applicable to General Education coursework only)
  - College credit for military service may be awarded upon review of a military transcript
  - Test-Out Option for the Professional Nursing (LPN Option): In addition to the overall score of the LPN STEP Exam, the exam will also be used to determine if the student is able to test out of the Fundamentals of Nursing and Pharmacology Principles in Nursing courses as part of the program curriculum. By successfully scoring a minimum of 75% on the Fundamentals and Pharmacology portions of the exam, students will be waived from these courses (Semester 3). For the test-out option, the College will only review the first-time test scores for the Fundamentals and Pharmacology portions of the exam.

- Credits requesting to be transferred in must be equal to those offered at Taylor College.
- The course is not a remedial course.
- The course was not taken to satisfy freshmen admission requirements.
- Transcripts will be thoroughly evaluated by the Director of Compliance
- Students will receive notification regarding the transfer credit evaluation and which courses were transferred in.
- Courses accepted for transfer credit will be noted on the Official Transcript from Taylor College.

Appeal Process for Denied Transferring of Credits
  - The student must complete an appeal form. The following supplemental information must be attached with the appeal form and submitted 30 days before the start of the program.
    - Course syllabus
    - Course objectives
    - Course description
    - Course textbooks and required materials
    - Other relevant information
  - The information for appeals will be reviewed by the President, Director of Compliance and Program Director.
  - The student will receive in writing the outcome and all decisions will be final

Transferring Credits to another Institution
A student who wishes to transfer credits earned from Taylor College to another institution is advised to consult with the receiving institution on the credits that will be accepted towards the student’s education at another institution. Acceptance of transfer of credits is always based upon the receiving institution regardless of program, State or accreditation status.

Copyright Procedures for Students
As an institution of higher learning, Taylor College is dedicated to providing quality educational programs and services to its students through the formation, discovery, and dissemination of knowledge. Taylor College recognizes that the copyright holder has exclusive rights to their copyrighted works but that the use of copyrighted materials is sometimes necessary to further enhance the learning, research and scholarship activities of its students.

All Taylor College students are expected to have a basic understanding of copyrighted law and to adhere to all laws regarding Copyright, Fair Use, and The Digital Millennium Copyright Act, and to act in good faith when using copyrighted materials to support their educational and research activities. Copyrighted materials include text, music, videos, games, movies, and software.

To assist the students, Taylor College faculty and staff will provide information about academic honesty, Copyright, Plagiarism, Fair Use and the Digital Millennium Copyright Act:
  - Information on academic honesty and plagiarism is in the Student Code of Conduct
  - Copyright information is posted in the College’s library and computer lab

Violation of Policy
Students who fail to comply with the copyright law and willfully infringe it may face fines, and civil or criminal penalties from the U.S. courts as well as disciplinary action from Taylor College.
Copyright
The owner of a copyright has the exclusive right to do and/or authorize others to do such things as:
- Make copies.
- Distribute the work.
- Display the work.
- Perform the work publicly.
- Create derivative works (other works based on the original work).

Requirements for Graduation
Students should make themselves aware of the graduation requirements:
- Completion of program curriculum.
- Achieve a Cumulative Grade Point Average (CPGA) of 2.0.
- Fulfill all financial obligations to the college.
- Must achieve a 92% on ATI comprehensive predictor (3.0) competencies in each module prior to their name being submitted to NCSBN.

Clinical Sites
Students enrolled into programs that require clinical rotation experience will be required to travel to a clinical site which may be located in Marion or surrounding Counties, clinical locations will vary and some may be a significant distance from the College campus. Students are responsible for their own transportation to and from the clinical sites. Clinical affiliations may at their discretion request a drug screen from students prior to or during clinical rotation, students must comply with this request to successfully complete the assigned clinical rotation experience and satisfy the requirements of the program. Students, who refuse a drug test when requested by the college or a clinical facility, may be dismissed from the program for refusal. If requested to take exam, it must be completed within twenty four hours. Student may be required to complete an additional level II background check prior to participating in the clinical experience. All required background checks and drug screens will be conducted at the student’s expense.

Complaints – Outside Due Process
It is the intent of all Taylor College programs to ensure the institutional policies, procedures and practices protect the rights and privileges of persons not associated with the education program. Persons not associated with the program such as representatives of clinical sites, employers of graduates, and the public, may contact the Program Director or College President with complaints, comments, suggestions or ideas. The following procedures have been established for consideration of all inquiries that fall outside due process:

Procedure:
1. Initial Screening of the Complaint, Comment, Suggestion or Idea:
   a. Any inquiry about filing a complaint, comment, suggestion or idea about a program will be recorded as it is received by the College.
   b. If such inquiries are received by other faculty or staff members, they will be referred to the Program Director or College President.
   c. Informal resolution of the complaint, comment, suggestion or idea will be attempted.

2. Formal Complaint, Comment, Suggestion or Idea:
   a. If informal resolution is not successful, the following steps will be required of the inquirer:
      i. Complaints, comments, suggestions and ideas must be provided in writing and signed by the original author(s). Any submission received without an author’s signature will not be acknowledged by Taylor College.
      ii. All written submissions must be mailed to the following:
          Taylor College
          (PTA or Nursing) Program Director
          5190 SE 125th Street
          Belleview, FL 34420
      iii. The Program Director will respond to all comments within 10 business days to further discuss and resolve the issue. If an acceptable resolution has not been achieved within the given time frame, a written appeal may be made to the College President.
      iv. Any issues involving the Program Director may be sent directly to the College President for initial resolution within 10 business days of receiving the inquiry.
v. The President will not become involved until all actions to resolve the issue with the Program Director have been exhausted (unless the comment is directly related to the Program Director.) The decision of the President will be final and not subject to further appeal.

vi. Records of all communication, meetings and final resolution will be confidentially filed and kept by the Program Director and College President for three (3) years.
Veteran Services

Standards of Academic Progress for Veteran Administration, VA, Students
Students receiving VA educational benefits must make at least a “C” for each course and must maintain a minimum cumulative grade point average (CGPA) of 2.0. The College does not have a probationary period.

A VA student who fails to achieve a grade of “C” or a CGPA of 2.0 will result in VA educational benefits being terminated and the student being withdrawn from the College.

VA students terminated from VA educational benefits due to unsatisfactory progress may be recertified when the student has successfully achieved a 2.0 grade point average. (Refer to Eligibility Guidelines for re-admission.)

Veteran’s Credit for Previous Education or Training
Students must report all education and training. Official transcripts from all educational institutions and service related training must be submitted to the college for evaluation. The institution will evaluate and grant credit, if appropriate and the tuition will be reduced proportionately. The Veteran Administration and VA student will be notified of the evaluative results.
Distance Learning

It is important to understand that online classes are not easy substitutions for on-campus classes. In fact, students find online classes as rigorous and demanding as on-campus classes. Students are expected to attend their virtual classrooms a specific numbers of times per week. All attendance is monitored. Times are flexible and dictated by students’ personal schedules; nonetheless, their presence is required and recorded and counts towards final grades.

Student Orientation to Online Users
All new/returning students must attend a New Student Orientation which typically lasts for 2 hours. During orientation students meet with faculty and administration to review the program’s expectations, media resources, financial aid, accounting, student services, class schedules, online platform and user capability, program handbook and other relevant material to their program and the College.

Online Platform
Online courses are offered on a BlackBoard platform; students will have the ability to communicate with the course Instructor and other classmates, post discussions, respond to questions, take exams, view grades and course progress, submit assignments, view Power Points and videos and download course content including course syllabus and other course material.

Log-In
Students will be logging into the system using their username and password. A student must create their username and password during the class orientation. The Instructor will give the student an access code that will allow them to access the course and course materials including course syllabus, course assignments, due dates and other relevant course information.

Class Meetings
Students will be required to attend three class meetings on campus for each online class. Students have to attend the first day of class, during mid-terms and to take their final exam. Additional class meetings may be added at the discretion of the Instructor.

Communication and Interaction
Students are able to communicate with their Instructor and classmates by using the online posting. Students can start new discussions or comment on other student’s discussions. Students can also communicate individually with another student or Instructor by logging into the course. Students will also receive the Instructors email address and can communicate by email. Other interactions can include online lectures, e-mail, document sharing, and interactive synchronized chats (audio/visual). Traditional methods of communication are also available, including phone, fax and office visits.

Grading
Students will be required to complete assignments for online classes. Assignments can be turned in through their online course by uploading it onto the online drop box; this will allow the Instructor to review and grade the assignment. Grades will be posted to the student’s account and can be seen online by the student.

Student Services
Students services are provided in three convenient ways: telephone, electronically or in person. Adequate personnel are available to meet student service needs. Distance learning students receive the same services as on-campus students. Additional information can be found at Student Services section in this catalog.

Learning Resources
Distance learners have access to the Taylor College library and online databases. Additional information can be found at the Learning Resources section in this catalog.
Student Services and Resources

**Academic Advising**
A student can get academic advising from the Program Director, Director of Compliance or designee regarding information about programs and the College.

**Personal Challenges**
Including academic challenges that face students they also have to handle personal challenges as well. Students can get information about daycare providers, abuse/abuse prevention, drug and alcohol addiction/prevention, family counselors, and where to find local libraries.

**Financial Aid Advising**
For those who qualify, students can receive financial aid advisement concerning the different types of educational aid offered by federal aid approved programs that are participated in by the college. Advisement includes eligible awards, mandatory counseling requirements to receive qualifying aid, guidance to borrowing federal loans, mandatory counseling to repay federal loans, scholarship information, VA certifications, military certifications, reviewing student ledger balances on account, guidance for prior student loan payment delinquencies, including deferment and forbearance options. Financial aid advisement is given only by those appropriately trained in the rules, regulations and policies referring to Title IV funding. Adequate educational tools for federal aid are available in the financial aid office.

**Tutoring**
Students have access to tutoring sessions led by instructors, lecturers, program graduates or those with exceptional knowledge. Student interested in tutoring sessions should contact their Program Director or Instructor.

**Job Placement**
Students who complete the program can receive job placement services through the College. The Placement Coordinator will assist those students in finding suitable job placement, if desired. Please note that although placement assistance is offered, employment is not promised nor guaranteed.

**Grievance**
We are committed to treating all students fairly. This policy allows the student to seek resolution to a conflict with their program, classmate, or instructor. The student must try to resolve the issue as soon as possible. Students have 14 days after dismissal from the program to file a grievance, or 14 days for any other issue. If you are unable to resolve on your own, the following steps must be taken:

1. Discuss the issue with the course Instructor.
2. The course Instructor can discuss the issue with their Program Director.
3. If the student is not satisfied with the resolution, the student can request in writing a meeting with the Executive Assistant, Director of Compliance or President.
4. If the student is not satisfied with the resolution, the student can request the grievance in writing and submit to the President. After the written grievance has been submitted, the President will schedule a meeting with the Grievance Committee (comprised of two Advisory Board members and the President).
5. Recommendations from the Grievance Committee will be submitted to the President.
6. The Executive Assistant will inform the student of the results of the Grievance Committee.
7. All steps must be followed and documented and then the student may refer their grievance if unresolved to the following addresses:

   - **Commission for Independent Education**
     325 West Gaines Street Suite 1414
     Tallahassee, Florida 32399-0400
     (888) 224-6684

   - **Council on Occupational Education**
     7840 Roswell Road, Building 300, Suite 325
     Atlanta, Georgia 30350
     (770) 396-3898

   - **Commission on Accreditation in Physical Therapy Education**
     1111 North Fairfax Street
     Alexandria, Virginia 22314
     (703) 706-3245
Students with Disabilities
It is the student’s responsibility to inform the Director of Admissions if they have a verifiable and documented disability. This documentation should verify the medical condition and suggestions for appropriate accommodations for the student. Reasonable accommodations will be determined by the college. If the accommodation is denied the student is informed of their right to appeal the decision. The Registrar’s Office will maintain the disability documentation if accommodations have been approved.

Physical Therapist Assistant Club
The purpose of the Taylor College Physical Therapist Assistant Club (TCPTAC) is to encourage members through professional and social activities. To educate the community regarding physical therapy, and promote Taylor College’s PTA program. To enable TCPTAC members to pursue continuing education, and defray costs among members associate with, but not limited to; continuing education, APTA/FPTA meetings, PTA advocacy, graduation expenses, or any other financial needs voted on by its members. For PTA students who are interested in becoming a member of the Taylor College Physical Therapist Assistant Club, please contact the Program Director.

Graduations
Graduations are designed to celebrate the event of completion of a program. The College will make every effort to schedule these ceremonies as soon after program completion as reasonably possible. However due to unforeseen circumstances the ceremony may be scheduled up to 30-days after program completion. Students are notified of graduation ceremony date as soon as we confirm the location.
Learning Resources

Library
The Taylor College library is located on-campus providing the students access to textbooks and periodicals. The College library provides a pleasant learning environment conducive for studying or research.

College E-mail Accounts
Students are assigned a college email address upon enrollment into the College. Students are required to use this email in a manner that is appropriate to the role of a student and a responsible member of society. All email correspondence made to and from student, from students and college employees is to be sent and from the student official college email.

Computer Lab
Students have access to computers and printers in the Computer Lab and are able to conduct research on the internet and use Microsoft Office products. Students have access to web versions of Microsoft Word, Excel, PowerPoint, Outlook and OneNote. Students will have online storage to hold school related documents, pictures and the ability to set-up groups, live chats or instant messaging between students and/or faculty members is available to enhance the communication and collaboration among the College community. Students can also check out laptops for the day to access the library’s online databases. Laptops must be returned the same day it is checked out.

Online Databases
Students can access journal articles, documents, books, encyclopedias, newspapers, magazines, video and audio files by searching the library’s array of 60 online databases. These resources are available 24 hours a day seven days a week from any computer on the campus or any computer with Internet access. An introductory video is available on the Taylor College’s Library page, www.taylorcollege.edu/library. Students have access to a comprehensive online database including the following:

Academic Calendar

2015-2016

Spring 2015
Monday, January 5 – Start Spring Semester
Monday, January 19 – Holiday – Martin Luther King, Jr. Day
Monday, March 30 – Friday, April 3 – Spring Break
Friday, April 24 – End of Semester
Saturday, April 25 – Sunday, May 3 – End of the Semester Spring Break

Summer 2015
Monday, May 4 – Start Summer Semester
Monday, May 25 – Holiday – Memorial Day
Friday, August 14 – End of Semester
Saturday, August 16 - Sunday, August 30 - Summer Break

Fall 2015
Monday, August 31 – Start Fall Semester
Monday, September 7 – Holiday – Labor Day
Wednesday, November 25 – Friday, November 27 – Thanksgiving Break
Friday, December 18 – End of Semester
Saturday, December 19 – Sunday, January 3 – Winter Break

Spring 2016
Monday, January 4 – Start Spring Semester
Monday, January 18 - Holiday – Martin Luther King, Jr. Day
Monday, March 28 – Friday, April 1 – Spring Break * Pending Marion County Public Schools 2016 Schedule
Friday, April 22 - End of Semester

Summer 2016
Monday, May 2 – Start Summer Term
Monday, May 30 – Holiday – Memorial Day
Monday July 4 – Independence Day
Friday, August 12 – End of Semester
Saturday, August 13 – Sunday, August 28 – Summer Break

Fall 2016
Monday, August 29 – Start Fall Term
Monday, September 5– Holiday – Labor Day
Wednesday, November 23 – Friday, November 25 – Thanksgiving Break
Friday, December 16 – End of Semester
Saturday, December 17 – Sunday, January 1– Winter Break

Holidays and Breaks
School will not be held on the following holidays: New Year’s Day, Martin Luther King Jr. Day, Spring Break, Memorial Day, Independence Day, Summer Break, Labor Day, Thanksgiving and Winter Break. Additional holidays may be observed or added to this list at the discretion of the President.

*Schedule is subject to change at any time with or without notice.
Admission Requirements

Non-Discrimination Policy
A candidate being considered for acceptance into a program at Taylor College will be reviewed and evaluated in a fair and unbiased manner. Taylor College will not refuse a qualified applicant on the basis of age, race, gender, disabilities, or national origin. Taylor College reserves the right to deny admission to applicants for any reason which is deemed to the best interest of the Institution.

Information Sessions
Taylor College offers on-campus information sessions about specific programs on a continuous basis throughout the year. Sessions generally take one hour. Students receive information about the admission requirements, transferring-in credits, tuition and fees, financial aid application process, deadlines and special requirements.

Orientation
Taylor College requires new students and re-enrolling students to attend orientation prior to starting classes. The orientation is designed to introduce students with the policies of the college. The student will be introduced to the staff and faculty members who will play an important part in their academic progress.

Guidelines for Readmission and Transferring into another Program
Former students wishing to reapply into Taylor College should follow the steps listed below:

- **Step 1** – Schedule an appointment with the Bursar’s Office to determine if you have an outstanding balance. All outstanding fees must be paid prior to starting class.
- **Step 2** – Schedule an appointment with the Financial Aid Office to complete Exit Counseling in regards to any student loans you have used during your prior enrollment.
- **Step 3** – Schedule & attend an Information Session to receive current application requirements for your program of interest.
- **Step 4** – Complete the current Application Process prior to program application deadline.
- **Step 5** – Applicants will be contacted by Taylor College to be scheduled to attend an interview for readmission.

*Candidates will be notified by mail of Taylor College’s conclusion regarding their readmission.

Taylor College Admissions Policy
A candidate for acceptance into a program at Taylor College will be reviewed and evaluated in a fair and unbiased manner. Taylor College will not refuse a qualified applicant on the basis of age, race, gender, disabilities, or national origin. Taylor College reserves the right to deny admission to applicants for any reason which is deemed to the best interest of the Institution.

State Licensure
Any person wishing to apply to a program that has been arrested or convicted of any offense other than a minor traffic violation should refer to the Florida Statues, Chapter 464 regarding licensure. Applicants must successfully pass a Level II Background check.

Student Immunization
As part of the admission requirements, students are required to submit documentation showing that the student’s immunizations are up-to-date. Required immunizations include: Tuberculosis, Hepatitis B, Measles/Mumps/Rubella, Tetanus/Diphtheria and Varicella. Verification of Flu vaccinations must be given to the Registrar’s office prior to attending any Clinical schedule. Failure to do so will prevent a student from attending and will result in an absence for each day missed.
Associate Degree Programs

Professional Nursing
1. Complete Admissions Testing
   - Pass the Test of Essential Academic Skills Version V (TEAS) with an overall minimum score of 64%
2. Appointment with an Admissions Representative to Submit Admission Requirements

Checklist for Completion of Admission Requirements:
- Completed Enrollment Application
- Copy of Driver’s License (at least 18 years old)
- Copy of Social Security Card
- Official High School Transcripts and/or Official GED Transcripts
- Official Transcripts from all prior colleges/universities attended (if applicable)
- Submit 2 Official Reference Questionnaires from professional references (Must be signed and sealed)
- Submit a typed essay on ‘How you became interested in the Nursing profession and what qualities you possess that will contribute to the profession. (Essay must be typed using correct spelling and grammar; must be a minimum of one page with one inch margins, double-spaced, and a 12-font size.)
- Submit current Health Care Provider CPR certification (BLS-CPR)
- Signed and completed Immunization Health History Form
- Successfully pass a Drug Screening Test
- Successfully pass a Level II Background check to determine if you are eligible for licensure (Any person wishing to apply to this program that has been arrested or convicted of any offense other than a minor traffic violation should refer to the Florida Statues, Chapter 464 regarding licensure.)

The Paramedic Option and LPN Option operate within the Professional Nursing program:

(Paramedic Option)
1. Complete Admissions Testing
   - Pass the Test of Essential Academic Skills Version V (TEAS) with an overall minimum score of 64%
2. Appointment with an Admissions Representative to Submit Admission Requirements

Checklist for Completion of Admission Requirements:
- Completed Enrollment Application
- Copy of Driver’s License (At least 18 years old)
- Copy of Social Security Card
- Official High School Transcripts and/or Official GED Transcripts
- Official transcripts from all prior colleges/universities attended (if applicable)
- Submit 2 Official Reference Questionnaires from professional references (signed & sealed)
- Submit a typed essay on ‘How you became interested in the Nursing profession, and what qualities do you possess that will contribute to the profession’
- Submit current Health Care Provider CPR certification (BLS-CPR)
- Submit Florida Department of Health-Issued Paramedic License
- Signed and completed Immunization Health History Form
- Successfully pass a Drug Screening Test
- Successfully pass a Level II Background check to determine if you are eligible for licensure (Any person wishing to apply to this program that has been arrested or convicted of any offense other than a minor traffic violation should refer to the Florida Statues, Chapter 464 regarding licensure.)
1. Complete Admissions Testing
   - Pass the LPN STEP Entrance Exam with an overall minimum score of 66%

   **Test-Out Option for the Professional Nursing (LPN Option):** In addition to the overall score of the LPN STEP Exam, the exam will also be used to determine if the student is able to test out of the Fundamentals of Nursing and Pharmacology Principles in Nursing courses as part of the program curriculum. By successfully scoring a minimum of 75% on the Fundamentals and Pharmacology portions of the exam, students will be waived from these courses (Semester 3). For the test-out option, the College will only review the first-time test scores for the Fundamentals and Pharmacology portions of the exam.

   - Pass the Nurses Math Exam with an overall minimum score of 80%

2. Appointment with an Admissions Representative to Submit Admission Requirements

   **Checklist for Completion of Admission Requirements:**
   - Completed Enrollment Application
   - Copy of Driver’s License (At least 18 years old)
   - Copy of Social Security Card
   - Official High School Transcripts and/or Official GED Transcripts
   - Submit Official Transcripts from Practical Nurse education, and any other previous college/universities attended
   - Active License to practice as a Licensed Practical Nurse
   - Submit 1 Official Reference Questionnaire from a nursing supervisor and/or employer
   - Submit current Health Care Provider CPR certification (BLS-CPR)
   - Signed and completed Immunization Health History Form
   - Successfully pass a Drug Screening Test
   - Successfully pass a Level II Background check to determine if you are eligible for licensure (Any person wishing to apply to this program that has been arrested or convicted of any offense other than a minor traffic violation should refer to the Florida Statues, Chapter 464 regarding licensure.)

**Licensed Practical Nurse to Associate Degree Nurse Bridge**

1. Complete Admissions Testing
   - Pass the nurses math exam with an overall minimum score of 80%
   - Pass the LPN STEP Entrance Exam with an overall minimum score of 66%

2. Appointment with an Admissions Representative to Submit Admission Requirements

   **Checklist for Completion of Admission Requirements:**
   - Completed Enrollment Application
   - Copy of Driver’s License (At least 18 years old)
   - Copy of Social Security Card
   - Official High School Transcripts and/or Official GED Transcripts
   - Submit Official Transcripts from Practical Nurse education, and any other previous college/universities attended
   - Active License to practice as a Licensed Practical Nurse
   - Submit 1 Official Reference Questionnaire from a nursing supervisor and/or employer
   - Submit current Health Care Provider CPR certification (BLS-CPR)
   - Signed and completed Immunization Health History Form
   - Successfully pass a Drug Screening Test
   - Successfully pass a Level II Background check to determine if you are eligible for licensure (Any person wishing to apply to this program that has been arrested or convicted of any offense other than a minor traffic violation should refer to the Florida Statues, Chapter 464 regarding licensure.)
**Physical Therapist Assistant**

1. Complete Admissions Testing
   - Pass the Test of Essential Academic Skills Version V (TEAS) with an overall minimum score of 64%

2. Appointment with an Admissions Representative to Submit Admission Requirements

   Checklist for Completion of Admission Requirements:
   - Completed Enrollment Application
   - Copy of Driver’s License (at least 18 years old)
   - Copy of Social Security Card
   - Official High School Transcripts and/or Official GED Transcripts
   - Official Transcripts from all prior colleges/universities attended (if applicable)
   - Submit 3 Official Reference Questionnaires one personal/non-relative, one past employer, one professional (Must be signed and sealed)
   - On Demand Essay; Must be written on campus during the admissions appointment (Essay topics will be provided)
   - Signed and Completed Immunization Health History Form
   - Successfully pass a Drug Screening Test
   - Successfully pass a Level II Background check to determine if you are eligible for licensure (Any person wishing to apply to this program that has been arrested or convicted of any offense other than a minor traffic violation should refer to the Florida Statues, Chapter 464 regarding licensure)

**Diploma Programs**

**Practical Nursing**

1. Complete Admissions Testing
   - Pass the HESI Admissions Assessment Exam, with the minimum scores in each subject:
     - Math – 75%
     - Reading Comprehension – 70%
     - Vocabulary and General Knowledge – 75%
     - Grammar – 80%
   - Pass the Test of Adult Basic Education (TABE) level 9/10, with a minimum score of 11.0 in each subject: Math, Reading, Language and Spelling

2. Appointment with an Admissions Representative to Submit Admission Requirements

   Checklist for Completion of Admission Requirements:
   - Completed Enrollment Application
   - Copy of Driver’s License (at least 18 years old)
   - Copy of Social Security Card
   - Official High School Transcripts and/or Official GED Transcripts
   - Official Transcripts from all prior colleges and/or universities attended (if applicable)
   - Submit 3 Official Reference Questionnaires from professional references (must be signed & sealed)
   - Submit a typed essay on ‘How you became interested in the Nursing profession and what qualities do you possess that will contribute to the profession (Essay must be typed using correct spelling and grammar. It must be a minimum of one page with one inch margins, double-spaced, and use a 12 font size.)
   - Signed and completed Immunization Health History Form
   - Successfully pass a Drug Screening Test
   - Successfully pass a Level II Background check to determine if you are eligible for licensure (Any person wishing to apply to this program that has been arrested or convicted of any offense other than a minor traffic violation should refer to the Florida Statues, Chapter 464 regarding licensure.)
Medical Assisting

1. Complete Admissions Testing
   - Pass the HESI Admissions Assessment Exam, with the minimum scores in each subject:
     - Math – 75%
     - Reading Comprehension – 70%
     - Vocabulary and General Knowledge – 75%
     - Grammar – 80%
   - Pass the Test of Adult Basic Education (TABE) level 9/10, with a minimum score of 11.0 in each subject:
     - Math, Reading, Language and Spelling

2. Appointment with an Admissions Representative to Submit Admission Requirements

Checklist for Completion of Admission Requirements:
- Completed Enrollment Application
- Copy of Driver’s License (at least 18 years old)
- Copy of Social Security Card
- Official High School Transcripts and/or Official GED Transcripts
- Official Transcripts from all prior colleges and/or university’s attended (if applicable)
- Submit 3 Official Reference Questionnaires from professional references (Must be signed and sealed)
- Submit a typed essay on ‘How you became interested in the profession and what qualities do you possess that will contribute to the profession.’ (Essay must be typed using correct spelling and grammar; Must be a minimum of one page with one inch margins, double-spaced, and use a 12-size font.)
- Signed and Completed Immunization Health History Form
- Successfully pass a Drug Screening Test
- Successfully pass a Level II Background check to determine if you are eligible for licensure (Any person wishing to apply to this program that has been arrested or convicted of any offense other than a minor traffic violation should refer to the Florida Statues, Chapter 464 regarding licensure.)

Pharmacy Technician

1. Complete Admissions Testing
   - Pass the HESI Admissions Assessment Exam, with the minimum scores in each subject:
     - Math – 75%
     - Reading Comprehension – 70%
     - Vocabulary and General Knowledge – 75%
     - Grammar – 80%
   - Pass the Test of Adult Basic Education (TABE) level 9/10, with a minimum score of 11.0 in each subject:
     - Math, Reading, Language and Spelling

2. Appointment with an Admissions Representative to Submit Admission Requirements

The LPN Option operates within the Professional Nursing program:

**Professional Nursing (LPN Option)**
72 Credit Hours
Associate of Science Degree

Program Description
The Professional Nursing program is designed to provide the knowledge, clinical skills, nursing values and experience necessary for an entry-level professional nursing position. Upon successful completion of the program, the graduate will be eligible to apply to take the National Council Licensure Examination for Registered Nurses (in accordance with the regulations set forth in the Nurse Practice Act, Chapter 464.008 and 464.018) to become licensed as a Registered Nurse.

**Standard Program Length:**
6 Semesters, 24 months

**Test-Out Option:**
5 Semesters, 20 months

Enrollment Status: Full-Time

Physical Therapist Assistant
72 Credit Hours
Associate of Science Degree

Program Description
The Physical Therapist Assistant (PTA) Program at Taylor College will train students to acquire the knowledge, clinical competency, and integrity to positively impact their patients and their profession. The 72 credits curriculum includes general education and technical physical therapist assistant courses as well as practical clinical experience. Upon successfully completing the requirements, the students will earn an Associate of Science degree. Physical Therapist Assistants function as members of the health care team providing patient care under the direction and supervision of a licensed Physical Therapist. They provide treatment to patients with various diagnoses to relieve pain and/or improve function. PTAs work in a variety of settings including hospitals, private practices, rehabilitation centers, school systems, sports teams, home health agencies, skilled nursing facilities, and other qualified facilities.

Note: The Physical Therapist Assistant program at Taylor College is Accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 1111 North Fairfax Street, Alexandria, VA 22314; telephone: (703) 706-3245; email: accreditation@apta.org; website: http://www.capteonline.org. The program's current status is probationary accreditation; for more information see http://www.capteonline.org/WhatWeDo/RecentActions/PublicDisclosureNotices/.
**Practical Nursing**

58 Credit Hours  
Diploma program

**Program Description**  
The Practical Nursing Program is designed to prepare the student for entry-level employment as a Licensed Practical Nurse by providing the theoretical knowledge and clinical competence to obtain licensure. The entire program is delivered over three 15 week semesters.

This program has received approval from the Florida Board of Nursing and graduates of this program are eligible to apply to take the National Council Licensure Examination for Practical Nurses (NCLEX-PN). Licensure is required for employment as a Licensed Practical Nurse.

Medical Assisting
72 Credit Hours
Diploma program

Program Description
This program offers a sequence of courses for the student to develop knowledge and skills needed to prepare for employment in the healthcare field. The courses build from simple to complex as the student learns competency-based applied learning that contributes to academic knowledge, higher-order reasoning, problem-solving skills and occupation-specific skills. The content includes, but is not limited to, communication, trans-cultural communication in healthcare, interpersonal skills, legal and ethical responsibilities, health-illness concepts, administrative and clinical duties, emergency procedures including CPR, HIV-Aids, emergency preparedness, safety and security procedures, medical terminology, anatomy and physiology and employability skills. The program focuses on broad, transferable skills including Phlebotomy and EKG, and stresses understanding and demonstration of the following elements of the health care industry: planning, management and finance.

### Cancellation and Refund Policy

Refunds will be made according to Taylor College’s Cancellation and Refund policy for those students who cancel and/or are terminated for any reason. All cancellation requests must be submitted in writing and delivered in person or mailed by certified mail. A full refund will be made for those applicants not accepted by the College or who cancel within three (3) business days after signing the Student Enrollment Agreement. Students who cancel after 3 business days of signing the Student Enrollment Agreement will adhere to the following:

1. Refunds, when due, must be made without requiring a request from the student.
2. Refunds, when due shall be made within 30 days (1) of the last day of attendance if written notification of withdrawal has been provided to the institution by the student, or (2) from the date the institution terminates the student or determines withdrawal by the student.
3. Retention of tuition and fees collected in advance for a student who does not commence class shall not exceed $100.

### Calculation for tuition charged for semester or payment period

1. Cancellation or withdrawal after attendance has begun, but prior to 20% completion of the semester or payment period, will result in a Pro Rata refund of tuition.
2. Cancellation after completing 20% of the semester or payment period will result in no refund.

### Non-credits Courses, Testing or Continuing Education

No refund will be given for continuing education, professional development, non-credit courses, or entrance testing.

### Cancellation of a course or program by Taylor College

Individuals are given the option of getting into the next available class/program or a full refund.
Financial Aid

The primary purpose of financial aid is to help students who otherwise might not be able to attend a post-secondary institution meet the cost of higher education. The basic responsibility for financing the student’s education lies with the student and their family.

Grants and Loans may be awarded if you are determined to have financial need based on the Free Application for Federal Student Aid (FAFSA). The application can be completed by going to the following website: www.fafsa.gov.

Federal Pell Grant Program
Type of Award: The Pell Grant is considered a need-based aid that students must qualify eligibility as determined by the Department of Education in order to receive aid. This Grant is generally awarded to only undergraduate students and is not repaid by the student.

Amount per Academic Year (2014-15): $ 650.00 – $5,730.00

Application: FAFSA

The William D. Ford Federal Direct Loan Program
This program allows students to borrow loans from the Department of Education with no credit history needed. These loans are repayable with interest after the student graduates. Students must be enrolled a minimum of half-time to be eligible for the loans. It is Mandatory that an Entrance Counseling Agreement and a Master Promissory Note be completed and signed before Direct Loans are awarded.

Type of Award: Direct Loans including the following:

Subsidized Stafford Loan
This loan is considered to be a need-based aid. The loan is long-term with a variable interest rate of 4.66% that the government will pay if you are currently attending school.

Eligible Award per Academic Year:
1st Year - $3,500.00
2nd Year - $4,500.00

Unsubsidized Stafford Loan
Not a need-based loan. This loan is long-term with a variable interest rate of 4.66% that the student is responsible to pay the accrued interest while they attend school. The interest may be deferred until the student graduates from college.

Eligible Award per Academic Year:
1st and 2nd Year - $6,000.00 (Independent)
1st and 2nd Year - $2,000.00 (Dependent)

Direct Parent Plus Loans
Type of Award:
The Direct Plus Loan is determined eligible based upon the parent’s credit history. This loan is for parents of dependent, undergraduate students pursuing a graduate degree. The parent is in full responsibility of the loan borrowed and repaid. The Plus loan has a variable interest rate of 7.21%. Repayment of the loan begins after the loan has been fully disbursed. To apply for this loan go to the following website: www.studentloans.gov to complete the Direct Plus Loan Application and Master Promissory Note.

Eligible Award per Academic Year: Based upon the college’s cost of attendance

Additional Applications for Direct Loans:
Master Promissory Note and Entrance Counseling Agreement: These informational applications explain the terms and conditions of borrowing the loan. The MPN is a legal binding agreement to repay your loans to the Department of Education. These applications can be electronically completed and signed on the following website: www.studentloans.gov.
Financial Aid Counseling Requirements
For any student obtaining federal loans, specific counseling requirements are mandatory prior to funds being disbursed. When deciding to accept a loan offered by your school you will be required to complete signed Electronic Master Promissory Note (MPN) and Entrance Counseling Forms online. These forms are mandated by the federal government, not by your school, and are required before any federal direct loans will be processed.

When you complete or withdraw from your program of interest, you will be required to complete a signed Exit Counseling Form online. This form is mandated by the federal government, not by your school, and is required before re-enrolling into another or same school. This form must be completed before any federal direct loans will be processed. To complete the mandatory required forms visit: www.studentloans.gov.

Loan Grace Period
A grace period occurs after a student leaves college or attends less than half-time and lasts for typically six months. After the grace period has been completed the principle and interest payments for the student loan(s) are required to be paid on a monthly basis.

Return of Title IV Funding (R2T4)
The date that Taylor College makes the determination that a student withdrew is identified through faculty input, student’s verbal or written notification to the Program Director or Registrar’s Office. Attendance is taken at the institution. In the event of any unofficial or official withdrawals, R2T4 calculations and the Return of Title IV funds must be done within 45 days from the date of determination of such withdrawal. The date of determination must occur within 14 days from the last day of attendance. All enrolled students are notified through Taylor College’s Student Catalog about the withdrawal process and the student’s rights and responsibilities including how a student reports the intent to withdraw and how the student begins the withdrawal process.

FAFSA Verification Process
During the Financial Aid process, students are selected at random by the Department of Education for verification. This process is to determine if the FAFSA was completed with the correct information. The Financial Aid Office will notify selected students of the required documentation they must provide to the College. Financial Aid will not be awarded until verification has been finalized and any corrections are made, if needed.

General Title IV Student Eligibility Requirements
- Be enrolled as a regular student in an eligible program.
- Not be enrolled simultaneously in two postsecondary schools without a consortium or contractual agreement.
- Meet one of the following academic criteria:
  - Have a high school diploma or its recognized equivalent (e.g., a GED)
  - Be enrolled in an eligible institution and sign an enrollment agreement
  - Be home schooled:
    - Obtain a secondary school completion credential for home schooling provided by the student’s home state, if one is offered
    - Have completed a secondary school education in a home school setting that qualifies as an exemption from compulsory attendance requirements under state law
- Have a valid Social Security Number with the Social Security Administration.
- Be a U.S. citizen or eligible non-citizen.
- Be registered with Selective Service, if required by law, with the Selective Service Administration for all male students who were born after December 31, 1959.
- Sign a Statement of Educational Purpose, which certifies that he or she will use federal student financial aid only to pay educational costs.
- Not be in default on a Title IV loan or, if in default, have made satisfactory repayment arrangements.
- Not owe a refund (overpayment) on any Title IV grants, or state grant previously received from any postsecondary institution.
- Make satisfactory academic progress toward the completion of the degree or certificate as required by the institution, state agencies and the Department of Education.
- Complete a FAFSA (Free Application for Federal Student Aid) and have a valid ISIR (Institutional Student Information Record).

All transfer students must submit an official transcript from former schools. Not less than 75% of the course work may be completed at Taylor College.
**College Scholarships**  
Taylor College offers scholarship opportunities to students. Scholarship availability, requirements and amounts may vary. Information can be found at [www.taylorcollege.edu/finaid/scholarships/](http://www.taylorcollege.edu/finaid/scholarships/). The student must notify the Financial Aid Office of any scholarships they have been awarded.

**Outside Scholarships**  
Many organizations offer scholarships to college students who meet their standard requirements. The Financial Aid Office has information about where you can find free internet scholarship search services. If you belong to any social, civic, ethnic, religious, professional or service groups you could contact them regarding any available scholarships that they offer. The student must notify the Financial Aid Office of any scholarships they have been awarded.

**Employer Assistance**  
The school does participate with students who have the opportunity to use the Employer/Reimbursement Assistance. The student will need to communicate with the employer to verify the assistance is available to pay for their educational cost. The student will need to notify the financial aid office that they are eligible to receive the assistance. If an invoicing process is necessary the student will be directed to the accounting office to begin the invoicing process for the assistance program.

**Florida Pre-Paid College Plan**  
Students who plan on using their Florida Pre-Paid College Plan need to provide the Financial Aid and Bursar’s Office with a copy of a current FPP Student Identification Card. The student must contact Florida Pre-Paid and fill out a transfer form to have them send Taylor College a Third-Party Billing Notice (preferred unrestricted). The student must notify the Financial Aid Office that they are eligible to receive benefits.

**Vocational Rehabilitation Assistance**  
Taylor College is approved by the State of Florida as a vendor to provide educational training for persons approved for Vocational Rehabilitation Educational Assistance. Individuals with handicaps or disabilities can find more information and assistance concerning Vocational Rehabilitation Benefits at this website, [www.rehabworks.org/](http://www.rehabworks.org/). Student who request Vocational Rehabilitation Educational Assistance must notify the Financial Aid Department.

**Career Source Assistance Procedures**  
Career Source assistance may be available to students depending upon funding and the student meeting eligibility requirements. Students should contact their local Career source office or speak to a Financial Aid Representative to obtain more information. The student should notify the Financial Aid Office of any financial aid they have been approved to receive.

**Veterans Benefits**  
Taylor College programs are approved by the Florida Department of Veteran’s Affairs for training. Students who are eligible for educational assistance from the federal Department of Veteran’s Affairs may be used towards their education. The educational assistance includes various chapters covered by the following VA programs:

- The Post-9/11 GI Bill ®
- Montgomery GI Bill ®- Active Duty (MGIB-AD)
- Montgomery GI Bill ®- Selected Reserve (MGIB-SR)
- Reserve Educational Assistance Program (REAP)
- Veterans Educational Assistance Program (VEAP)
- Survivors’ and Dependents' Educational Assistance Program (DEA)
- GoArmyEd (DoD)
- Educational Dollars for Duty (EDD)

Students who plan to use VA Benefits at Taylor College must notify the Financial Aid Department. A Financial Aid Representative will assist the student in completing the appropriate documents required to receive benefits. The following documents will be voluntarily requested to begin the claim process.

I. DD-214

II. Eligibility Letter from VA

Students with questions about their education assistance and eligibility may visit the VA’s website for free education and vocational counseling services available to service members and veterans at [http://explore.va.gov/](http://explore.va.gov/).
Satisfactory Academic Progress (SAP)

The Satisfactory Academic Progress (SAP) Policy applies to all students enrolled in an Accrediting Bureau of Health Education approved program, whether receiving Federal Title IV, HEA funds, partial-funding assistance or self-pay.

Process Overview & Responsibilities
Federal regulations require all schools participating in state and federal financial aid, Title IV, HEA programs to monitor satisfactory academic progress. These standards are applicable to all students attending Taylor College.

To be eligible for Title IV, Financial Aid, a student must maintain satisfactory academic progress as per section 668.16(e) of HEA 1965. Taylor College has developed policies to determine the academic standards that all students are expected to meet and then a means and schedule of measuring the achievement of those quantitative and qualitative standards.

The policy is provided to all students prior to the first class session. The policy is consistently applied to all applicable students. Student evaluations are maintained in the student file. The Financial Aid Office, in coordination with the Program Director, monitors quantitative and qualitative progress. The SAP is reviewed manually and a copy of the latest transcript is maintained in the college’s computer system.

The relevant SAP policies are summarized below. All students must maintain satisfactory academic progress according to the following standards in order to continue enrollment. Satisfactory academic progress will be evaluated and measured at the end of each semester (financial aid payment period) and will be checked prior to disbursement of aid.

Title IV Eligible Programs:
The following programs are approved for title IV aid:

<table>
<thead>
<tr>
<th>Program</th>
<th>Credits</th>
<th>Duration</th>
<th>Years</th>

</tbody>
</table>

Same As or Stricter Than
The SAP Policy for Title IV students at Taylor College is the same as the school’s standards for all students enrolled in the same educational programs who are not receiving Title IV aid. The Title IV SAP Policy is the same as the school’s academic policy.

The Financial Aid Office reviews the Title IV, HEA SAP Policy to ensure it meets all federal requirements. The Program Director notifies the Financial Aid Office if the school changes its academic policies. SAP standards are established by the Campus President.

Academic Progress (Quantitative and Qualitative)
A Cumulative Grade Point Average (CGPA) equal to or greater than 2.0 is required for graduation. In addition, at the end of the first academic year, students must have a CGPA equal or greater than 2.0 to be making satisfactory academic progress. Grades from credits transferred into the college will be used in the calculation of the Cumulative Grade Point Average. Students earning a “Fail” in any course will be withdrawn from the program.

1. The institution bases a student’s grade on academic exams and their demonstrated clinical skills. A written exam is given periodically and at the completion of the program. The examinations are graded according to the following schedule: Students must maintain a “C” in each related course to continue in a program. Clinical competency evaluations will be done throughout the program. Consistent unsatisfactory clinical performance will result in dismissal from the institution.

2. Successful completion of a class is defined as earning a grade of “C” or better. The grading policy will be given to students at the beginning of each class which will include the following grading scale. At the end of the semester (pay period) a final grade will be assigned and recorded as part of the student’s permanent record.
Grade | Interpretation | Average Value | Grade Point Value
--- | --- | --- | ---
A | Excellent | 100 – 92% | 4.0
B | Good | 91 – 83% | 3.0
C | Average | 82 – 75% | 2.0
F | Failing | 74% – Below | Fail
W | Withdraw | 0 | Withdraw

3. No make-ups will be given for missed quizzes and finals unless otherwise pre-approved by the Program Director and/or the student provides documentation for the absence and these situations will be reviewed on a case-by-case basis by the Program Director.

4. Quantitative (PACE) Requirement: Students are required to complete his/her educational program in no longer than 150% of the published length of the program. The student agrees to complete the course within a maximum time frame of one and one-half (1 ½) times the length of the course as stated in the enrollment agreement.

5. Students meeting the minimum requirements for **attendance and academic progress** at any evaluation point will be considered to be making satisfactory progress until the next evaluation.

**Evaluation Periods**
Formal Satisfactory Progress Evaluations for title IV, HEA in both attendance (clock hours and weeks) and academics (Grade Point Average) will occur at the end of every semester (payment period).

**Evaluating Academic Ability**
Evaluations are conducted at the end of each semester (payment period) to determine if the student has met the minimum requirements. Evaluations are based on the cumulative attendance percentage as of the last day of the evaluation period. The attendance percentage is determined by dividing the total hours accrued by the total number of hours scheduled. An evaluation of the cumulative attendance since the beginning of the course will indicate that, given the same attendance rate, the student will graduate within the maximum time frame allowed.

The following is used to evaluate a student’s academic ability:
1. Practical grade reports are issued to each student through the electronic student portal after each semester exam, to make them aware of their progress toward making SAP.
2. Examinations are given in all subjects
3. Grades and attendance (SAP) records are reviewed with Financial Aid office at the end of the semester.

**Determination of Progress**
Student evaluations are done at least twice during the semester to determine if the student is on track to meet the minimum requirements for SAP by the next payment period. Students meeting the minimum requirements for academics and attendance at the end of each evaluation period (end of payment period) will be considered making SAP until the next scheduled evaluation.

**Academic Year Definition**
Academic year is defined as: 24 credits hours and 30 weeks of instruction for Title IV, Financial Aid purposes.

**Financial Aid Warning**
If a student’s CGPA falls below a 2.0 or the student does not complete the required credits, the student is placed on Financial Aid warning during the subsequent (academic year) payment. After counseling, the student signs an agreement to the conditions of the Financial Aid warning period. The student on financial aid warning for a payment period may not receive funding for the subsequent period unless the student makes SAP. During the Financial Aid warning period, eligibility for financial aid continues. A withdrawal grade **W** will count as attempted hours but will not be considered as credits successfully completed.

A student who does not meet the 2.0 CGPA at the end of the Financial Aid warning period will be terminated from the college.
**Appeal Process**
A student who loses their financial aid eligibility due to not making SAP at the end of a financial aid warning has the right to file an appeal regarding their SAP Evaluations.

A student, who wished to appeal a disciplinary action and/or decision made in reference to the Satisfactory Academic Progress Policy, must submit a typed letter to the Program Director or Campus President. This letter must contain information about the student’s reason regarding the action and/or decision and reasons why the student is wishing to appeal. Student(s) must provide supportive documentation along with their letter in order to support their position and any mitigating circumstances that may have existed. The Program Director will discuss any student who disagrees with a SAP decision, on an appointment basis only.

The student will be notified by the Program Directors’ decision within fifteen (15) business days following the receipt of the student’s appeal letter. Additional time may be taken to thoroughly review the student’s appeal. A student, who wishes to appeal any SAP decision made by the Program Director, must submit a typed letter to the President with the supportive documentation explaining the reason why the student is wishing to appeal the decision. The President will notify the student within fifteen (15) business days of the receipt of the letter, additional time may be taken to thoroughly review the student’s appeal. The President will make a final decision, although, the appeal can be escalated to the Nursing or Physical Therapist Assistant Advisory board.

The following are examples of reason students were not making Satisfactory Academic Progress:
- The death of a relative of the student.
- An injury or illness of the student.
- Other special circumstances.

If the student wins the appeal they will then be placed on Financial Aid Probation, which is a status assigned by the institution to a student who fails to make SAP, who has appealed and has had his/her Title IV, HEA eligibility reinstated for one payment period.

**Financial Aid Probation**
If Financial Aid Probation Status is granted, the student will regain Title IV, HEA eligibility for the next eligible payment period only. The student must be making SAP at the end of the payment period to regain Title IV, HEA funding for the next payment period.

When a student is placed on Financial Aid Probation status, he or she will be required to do the following:

1. Agree to a written academic plan that specifies how the student will regain SAP. The plan may include but is not limited to mandatory tutoring, scheduled advisement sessions, extra course assignments, repeating a course for which the student received a failing grade, and/or repeating a course from which the student withdrew.
2. Sign the academic plan (a copy will be kept in the student’s file).

A student on Financial Aid Probation because of a successful appeal is eligible for Title IV, HEA funds for ONE payment period only. Students who regains SAP at the end of the next payment period will have regained full eligibility for Title IV, HEA funding.

**Reinstatement of Title IV, Financial Aid**
Reinstatement of aid is limited to the period under evaluation, the next payment period. Students making SAP by the conclusion of the Warning/probation status will be removed from the warning/probation status and will regain eligibility for Title IV, financial aid.

**Transfer Students**
The School will count all transfer hours that apply toward the student’s current program in determining SAP. All transfer hours will be counted as both hours attempted and hours completed. More information regarding transfer of credit can be found under Academic Information.

**Leaves of Absence and Interruptions, and Withdrawals**
There is no provision for a Leave of Absence at this institution. A student who cannot continue must withdraw and re-apply to the program at the next available enrollment date. See Admission Requirements for addition information.
Withdrawal Date
If a student does not continue with class, the withdrawal date will be determined after the student exceeds the number of allowed absences (refer to Student Attendance and Tardiness Policy). However, if a student is in communication with the institution via any means of communication to inform that the student will no longer be attending, that date of communication will be considered the date of determination for the student. A student must contact the Program Director or Program Instructor to give any notification of official withdrawal. If a student wishes to enroll into the program in the future, the student must complete the withdrawal process outlined in the “Official Withdraw from Program with Consideration for Future Reenrollment Policy”.

Students who withdraw from the college and later re-enter in the same program will continue at the same satisfactory progress and evaluation points in effect at the time of withdrawal. A student, who chooses to transfer from one program to another, will have only the grades and credits that apply to the new program will be applied to the student’s Cumulative Grade Point Average (CGPA).

Reinstatement before 180 Days
Students who have been terminated or withdrew from school and re-enroll (if determined eligible), after more than 180 days will pay an application fee and will be charged for contracted hours at the current tuition rate. All re-enrolling students will be provided the school’s re-enrollment policy and will be evaluated by the school Director of Compliance for placement. Students applying for re-entry or transfer-in from other schools will be required, as a condition of enrollment, to bring delinquent prior student loans to a current status.

Course Incompletes and Non-Credit Remedial Courses
Course incompletes, repetitions and non-credit remedial courses do not apply to this institution’s form of instruction. The school does not issue incompletes and does not offer non-credit remedial courses.
Course Descriptions

Florida’s Statewide Course Numbering System
Courses in this catalog are identified by prefixes and numbers that were assigned by Florida’s Statewide Course Numbering System (SCNS). This numbering system is used by all public postsecondary institutions in Florida and 25 participating nonpublic institutions. The major purpose of this system is to facilitate the transfer of courses between participating institutions. Students and administrators can use the online SCNS to obtain course descriptions and specific information about course transfer between participating Florida institutions. This information is at the SCNS website at http://scns.fldoe.org.

Each participating institution controls the title, credit, and content of its own courses and recommends the first digit of the course number to indicate the level at which students normally take the course. Course prefixes and the last three digits of the course numbers are assigned by members of faculty discipline committees appointed for that purpose by the Florida Department of Education in Tallahassee. Individuals nominated to serve on these committees are selected to maintain a representative balance as to type of institution and discipline field or specialization.

The course prefix and each digit in the course number have a meaning in the SCNS. The listing of prefixes and associated courses is referred to as the “SCNS taxonomy.” Descriptions of the content of courses are referred to as “statewide course profiles.”

Example of Course Identifier

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Level Code</th>
<th>Century Digit</th>
<th>Decade Digit</th>
<th>Unit Digit</th>
<th>Lab Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENC</td>
<td>1</td>
<td>1</td>
<td>0</td>
<td>1</td>
<td>No laboratory component in this course</td>
</tr>
<tr>
<td>English Composition Lower (Freshman) Level at this institution</td>
<td>Freshman Composition</td>
<td>Freshman Composition Skills</td>
<td>Freshman Composition Skills I</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

General Rule for Course Equivalencies
Equivalent courses at different institutions are identified by the same prefixes and same last three digits of the course number and are guaranteed to be transferable between participating institutions that offer the course, with a few exceptions, as listed below in Exception to the General Rule for Equivalency.

For example, a freshman composition skills course is offered by 56 different postsecondary institutions. Each institution uses “ENC_101” to identify its freshman composition skills course. The level code is the first digit and represents the year in which students normally take the course at a specific institution. In the SCNS taxonomy, “ENC” means “English Composition,” the century digit “1” represents “Freshman Composition,” the decade digit “0” represents “Freshman Composition Skills,” and the unit digit “1” represents “Freshman Composition Skills I.”

In the sciences and certain other areas, a “C” or “L” after the course number is known as a lab indicator. The “C” represents a combined lecture and laboratory course that meets in the same place at the same time. The “L” represents a laboratory course or the laboratory part of a course that has the same prefix and course number but meets at a different time or place.

Transfer of any successfully completed course from one participating institution to another is guaranteed in cases where the course to be transferred is equivalent to one offered by the receiving institution. Equivalencies are established by the same prefix and last three digits and comparable faculty credentials at both institutions. For example, ENC 1101 is offered at a community college. The same course is offered at a state university as ENC 2101. A student who has successfully completed ENC 1101 at the community college is guaranteed to receive transfer credit for ENC 2101 at the state university if the student transfers. The student cannot be required to take ENC 2101 again since ENC 1101 is equivalent to ENC 2101. Transfer credit must be awarded for successfully completed equivalent courses and used by the receiving institution to determine satisfaction of requirements by transfer students on the same basis as credit awarded to the native students. It is the prerogative of the receiving institution, however, to offer transfer credit for courses successfully completed that have not been designated as equivalent. NOTE: Credit generated at institutions on the quarter-term system may not transfer the equivalent number of credits to institutions on the semester-term system. For example, 4.0 quarter hours often transfers as 2.67 semester hours.
The Course Prefix
The course prefix is a three-letter designator for a major division of an academic discipline, subject matter area, or subcategory of knowledge. The prefix is not intended to identify the department in which a course is offered. Rather, the content of a course determines the assigned prefix to identify the course.

Exceptions to the General Rule for Equivalency
Since the initial implementation of the SCNS, specific disciplines or types of courses have been accepted from the guarantee of transfer for equivalent courses. These include courses that must be evaluated individually or courses in which the student must be evaluated for mastery of skill and technique. The following courses are exceptions to the general rule for course equivalencies and may not transfer. Transferability is at the discretion of the receiving institution.

A. Courses not offered by the receiving institution.
B. For courses at non-regionally accredited institutions, courses offered prior to the established transfer date of the course in question.
C. Courses in the _900-999 series are not automatically transferable, and must be evaluated individually. These include such courses as Special Topics, Internships, Apprenticeships, Practical, Study Abroad, Theses, and Dissertations.
D. College preparatory and vocational preparatory courses.
E. Graduate courses.
F. Internships, apprenticeships, practical, clinical experiences, and study abroad courses with numbers other than those ranging from 900-999.
G. Applied courses in the performing arts (Art, Dance, Interior Design, Music, and Theatre) and skills courses in Criminal Justice (academy certificate courses) are not guaranteed as transferable. These courses need evidence of achievement (e.g., portfolio, audition, interview, etc.).

Courses at Nonregionally Accredited Institutions
The SCNS makes available on its home page (http://scns.fldoe.org) a report entitled “Courses at Nonregionally Accredited Institutions” that contains a comprehensive listing of all nonpublic institution courses in the SCNS inventory, as well as each course’s transfer level and transfer effective date. This report is updated monthly.

Questions about the SCNS and appeals regarding course credit transfer decisions should be directed to the Florida Department of Education, Office of Articulation, 1401 Turlington Building, Tallahassee, Florida 32399-0400. Special reports and technical information may be requested by calling the SCNS office at (850) 245-0427 or at http://scns.fldoe.org.

Taylor College’s Course Numbering System
Those courses offered by Taylor College that are not part of Florida’s Statewide Course Numbering System are identified by a unique code system. The prefixes used are to identify the program that the course is in. The digits are to identify the courses within the program in numerical order.

Definition for a Unit of Credit
Credits for Associate Degree programs
Taylor College awards semester credits for its Associate Degree programs. One semester credit is equivalent to the followings;

15 clock hours in theory, or
30 clock hours in lab, or,
45 clock hours in externship/clinical
## General Education

**DEP 2004 – Lifespan Development**  
3 Credits  
This course consists of the study of the development of the individual throughout the life cycle, including child, adolescent and adult patterns of behavior with attention to physical, intellectual, cognitive, personality, and social development.  
*This course is offered online. Prerequisite(s): ENC1101, PSY1012  
Lecture Hours: 45, Lab: 0, Clinical: 0

**ENC 1101 – English Composition**  
3 credits  
The first course in college composition designed to develop skills in writing multi-paragraph essays with emphasis on exposition, including the selection, restriction, organization and development of topics. It offers the student opportunities to improve CLAST English skills. Students examine selected writing samples as models of form and sources of ideas for their own writing.  
(This course counts toward satisfaction of State Rule 6A-10.30 SBE6A-10.30. 6,000 word writing requirement.)  
* This course is offered online. Prerequisite(s): None  
Lecture Hours: 45, Lab: 0, Clinical: 0

**HUM 2472 – Ethics**  
3 Credits  
The United States has the most diverse society on earth. With its bountiful mix of languages, races, religions, cultures and ideas, America offers its residents the opportunity to be “citizens of the world” without leaving home. Rich diversity, however, brings with it the challenge of adjusting to assumptions, values, experience, and historical traditions different from our own. In this course, students have the opportunity to examine both America’s diverse mix and society’s successes and failures in accommodating different peoples, backgrounds, and ideals. Particular attention will be paid to social, legislative, and judicial milestones that have shaped the American social environment.  
(This course counts toward satisfaction of State Rule 6A-10.30 SBE6A-10.30. 6,000 word writing requirement)  
* This course is offered online. Prerequisite(s): None  
Lecture Hours: 45, Lab: 0, Clinical: 0

**MFG 1107 – Math for Liberal Arts**  
3 credits  
This course exposes students to a variety of independent topics that span the range of mathematical tools used by healthcare managers. Topics include statistics as a performance measurement tool, quality control mathematics, quality outcomes measurement, risk management, data flow for staffing patterns and resource management optimization. This module also includes basic concepts in mathematics, including whole numbers, fractions, decimals, percentage, estimation, ratios, and proportions, systems of numeration, signed numbers, rational numbers, graphs and elementary logic.  
* This course is offered online. Prerequisite(s): None  
Lecture Hours: 45, Lab: 0, Clinical: 0

**PSY 1012 – Psychology**  
3 credits  
The field of psychology has changed dramatically over the past century. Psychological “truths” of twenty-five years ago are considered misguided, even erroneous, today. Yet, many of the fundamental questions of psychology remain the same. What does it mean to perceive? What do our brains do? Why do people act differently in groups than when they are alone? How does memory work? What’s going on in my child’s mind? This course will tackle these and other questions by surveying the work of classical and contemporary psychologists. Students will be encouraged to think about the theoretical bases of this work and to consider how such work can be relevant to everyday life.  
(This course counts toward satisfaction of State Rule 6A-10.30 SBE6A-10.30. 6,000 word writing requirement.)  
* This course is offered online. Prerequisite(s): None  
Lecture Hours: 45, Lab: 0, Clinical: 0

**PHI 2601 – Critical Thinking**  
3 Credits  
This course will discuss the characteristics of a skilled critical thinker. It will help the student learn the levels and barriers of critical thinking. Analytical skills, effective communication, and research and inquiry skills will dominate the course and allow the student to assess themselves throughout.  
*This course is offered online. Prerequisite(s): None  
Lecture Hours: 45, Lab Hours: 0, Clinical Hours: 0
Professional Nursing (including Paramedic Option and LPN Option)

BSC 1085C – Human Anatomy & Physiology I  
This course introduces the structure and function of the human body. Topics include basic chemistry and cell biology, tissues, and the respiratory, integumentary, cardio-vascular, skeletal, muscular, nervous and sensory systems of the body. Medical terminology is emphasized. Laboratory exercises, coordinated with course content, including microscopic observation, experimentation, study of anatomical models, and dissection exercises are included in this course. Prerequisite(s): None  
Lecture Hours: 45, Lab Hours: 30, Clinical Hours: 0

BSC 1086C – Human Anatomy & Physiology II  
This course is a continuation of the study of human anatomy and physiology begun in BSC 1085 C. The digestive, endocrine, lymphatic and immune digestive, urinary and reproductive systems are studied as well as blood, nutrition and metabolism, fluid and electrolyte balance, and acid-base balance. Laboratory exercises, coordinated with course content, including microscopic observation, experimentation, study of anatomical models, and dissection exercises are included in this course. Prerequisite(s): None  
Lecture Hours: 45, Lab Hours: 30, Clinical Hours: 0

HUN 2201 – Human Nutrition  
This course introduces the student to principles of nutrition and the role of nutrients in health and common alterations in health throughout the life cycle. An introduction to clinical nutrition is included to prepare the student to apply these principles to the individual, family, community and clinical areas. *This course is offered online. Prerequisite: ENC 1101  
Concurrent with: NUR1121C  
Lecture Hours: 45, Lab Hours: 0, Clinical Hours: 0

MCB 2011C – Introduction to Microbiology  
This course provides an introduction to microbiology that emphasizes effects of microorganisms on human systems. Topics include microbial cell structure, function and metabolism; requirements for and control of growth; genetics, mutations, and biotechnology; a survey of bacteria, viruses, algae, fungi, protozoa and helminthes; interactions with and impact of microbes on humans, including mechanisms of pathogenicity. Laboratory exercises, coordinated with class content, including techniques for the cultivation, study, and control of microorganisms are included in this course. Prerequisite(s): BSC 1085C  
Concurrent with: BSC 1086C  
Lecture Hours: 45, Lab Hours: 30, Clinical Hours: 0

NUR 1020C – Fundamentals of Nursing  
This course provides a foundation for the nursing program. It introduces the student to the history and practice of nursing, including the standards of nursing practice. The nursing process is introduced and used as an approach to nursing care with emphasis on assessment of basic human needs relating to oxygenation, nutrition, elimination, comfort and safety, security and mobility. Critical thinking as embodied in the nursing process is emphasized and the concept of the nurse as a provider of care, manager of care and member of the nursing profession is incorporated into the course content. Theoretical knowledge and principles are applied in the skills laboratory and clinical setting. Normal functional health patterns are explored in the context of the physical, biological and social sciences. Prerequisite(s): BSC 1085C, BSC 1086C, PSY 1012, ENC 1101, PHI 2601  
Concurrent with: NUR 1141  
Lecture Hours: 45, Lab Hours: 60, Clinical Hours: 90

NUR 1141 – Pharmacology Principles in Nursing  
This course introduces the student to the basic pharmacologic concepts and principles related to the safe administration of therapeutic agents by nurses to clients of all ages. It is designed to facilitate the student’s understanding of the mechanisms of drug actions and provide a safe approach to drug administration. Students learn major drug classifications and selected prototypes along with principles and techniques of safe, effective administration of drugs and other therapeutic agents, drug interactions, legal responsibilities and nursing considerations for specific drugs affecting all body systems. By the end of the course, student must apply computation skills to demonstrate administration of drugs without error in order to successfully pass the course and progress in the nursing program. Prerequisite: MFG 1107  
Lecture Hours: 45, Lab Hours: 0, Clinical Hours: 0
NUR 1121C – Adult Health Nursing I 
9 credits
In this course students continue to develop their role as a member of the profession of nursing as a provider of care to clients with uncomplicated medical-surgical alterations in health. Pathophysiological mechanisms of disease are covered as well as assessment and nursing management with a special emphasis on the chronically ill client. The role of the nurse as a provider of care, communicator, teacher, manager and member of a profession are expanded and provide the framework for clinical application and evaluation. Theoretical knowledge and principles are applied in the skills laboratory and clinical setting.
Prerequisite: NUR 1020C, NUR 1141  Concurrent with: HUN 2201
Lecture Hours: 90, Lab Hours: 30, Clinical Hours: 90

NUR 2711C – Adult Health Nursing II 
10 credits
The focus of this adult-health nursing course is on the care of adults with altered health states in acute care and psychiatric settings. In this course students continue to develop their role as a member of the profession of nursing as a provider of care to clients with more complex medical-surgical alterations in health. Emphasis is placed on knowledge and skills relating to advanced adult health care in medical-surgical and psychiatric settings. The roles of the nurse as a provider of care, communicator, teacher, manager and member of a profession are expanded and provide the framework for clinical application and evaluation. Theoretical knowledge and principles are applied in the skills laboratory and clinical setting.
Prerequisite: NUR 1141, NUR 1121C  Concurrent with: DEP 2004
Lecture Hours: 90, Lab Hours: 30, Clinical Hours: 135

NUR 2460C – Maternal-Child Nursing 
8 credits
In this course the student continues to develop the role as a member of the profession of nursing as a provider of care to women, children and families in meeting their basic needs in a variety of settings. Emphasis is placed on knowledge and skills relating to the pediatric population and the childbearing family. The role of the nurse as a provider of care, communicator, teacher, manager and member of a profession provide the framework for clinical application and evaluation in pediatric and childbearing settings. Prerequisite: NUR 1121C, DEP 2004
Lecture Hours: 75, Lab Hours: 0, Clinical Hours: 135

NUR 2801C – Nursing Leadership & Management 
5 Credits
This course is designed to assist the graduating student in the transition to the role of the professional nurse. Management concepts, leadership skills, and the legal, ethical, and professional responsibilities of the registered nurse are stressed in the didactic component. The clinical experience in an acute care setting promotes the student’s transition to graduate with its emphasis on management of care and leadership, functional health patterns, professional behaviors, communication, clinical decision-making, caring interventions, teaching and learning, collaboration, and managing care activities in a broad, in-depth application of the nursing process in the clinical management of groups of patients. Prerequisite: To be completed in the last semester.
Lecture Hours: 60, Lab Hours: 30, Clinical Hours: 0

Licensed Practical Nurse to Associate Degree Nurse Bridge

MCB 2011C – Introduction to Microbiology 
4 credits
This course provides an introduction to microbiology that emphasizes effects of microorganisms on human systems. Topics include microbial cell structure, function and metabolism; requirements for and control of growth; genetics, mutations, and biotechnology; a survey of bacteria, viruses, algae, fungi, protozoa and helminthes; interactions with and impact of microbes on humans, including mechanisms of pathogenicity. Laboratory exercises, coordinated with class content, including techniques for the cultivation, study, and control of microorganisms are included in this course. Prerequisite(s): BSC 1085C, BSC 1086C
Lecture Hours: 45, Lab Hours: 30, Clinical Hours: 0

HUN 2201 – Human Nutrition 
3 credits
This course introduces the student to principles of nutrition and the role of nutrients in health and common alterations in health throughout the life cycle. An introduction to clinical nutrition is included to prepare the student to apply these principles to the individual, family, community and clinical areas. *This course is offered online. Prerequisite: ENC 1101  Concurrent with: NUR2711C
Lecture Hours: 45, Lab Hours: 0, Clinical Hours: 0
BSC 1085C – Human Anatomy & Physiology I
This course introduces the structure and function of the human body. Topics include basic chemistry and cell biology, tissues, and the respiratory, integumentary, cardio-vascular, skeletal, muscular, nervous and sensory systems of the body. Medical terminology is emphasized. Laboratory exercises, coordinated with course content, including microscopic observation, experimentation, study of anatomical models, and dissection exercises are included in this course. Prerequisite(s): None
Lecture Hours: 45, Lab Hours: 30, Clinical Hours: 0

BSC 1086C – Human Anatomy & Physiology II
This course is a continuation of the study of human anatomy and physiology begun in BSC 1085 C. The digestive, endocrine, lymphatic and immune digestive, urinary and reproductive systems are studied as well as blood, nutrition and metabolism, fluid and electrolyte balance, and acid-base balance. Laboratory exercises, coordinated with course content, including microscopic observation, experimentation, study of anatomical models, and dissection exercises are included in this course. Prerequisite(s): None
Lecture Hours: 45, Lab Hours: 30, Clinical Hours: 0

NUR 1005C – Transition to Professional Nursing
This course is designed to facilitate the transition of the practical nurse to the role of registered nurse. It builds on previous knowledge and skills, reviewing components included in the practical nursing curriculum and addressing the role of the associate degree registered nurse in the current health care system. Critical thinking as embodied in the nursing process is emphasized and the role of the professional nurse as provider of care, manager of care and member of the nursing profession is incorporated into the course content. Physical assessment and basic clinical skills are reviewed and the principles and techniques of intravenous therapy are covered. Prerequisite: Florida LPN License
Lecture Hours: 30, Lab Hours: 0, Clinical Hours: 0

NUR 1204C – LPN-ADN Transition: Adult Health Nursing I
This course builds on previous health education courses, knowledge and skills. The role of the professional nurse as a provider of care to clients with uncomplicated medical-surgical alterations in health is covered. Pathophysiologic mechanisms of disease, assessment and nursing management are included with a special emphasis on the chronically ill client. The role of the nurse as provider of care, communicator, teacher, manager, and member of a profession are expanded and provide the framework for clinical application and evaluation. Prerequisite: NUR 1005C
Lecture Hours: 135, Lab Hours: 0, Clinical Hours: 0

NUR 2711C – Adult Health Nursing II
The focus of this adult-health nursing course is on the care of adults with altered health states in acute care and psychiatric settings. In this course students continue to develop their role as a member of the profession of nursing as a provider of care to clients with more complex medical-surgical alterations in health. Emphasis is placed on knowledge and skills relating to advanced adult health care in medical-surgical and psychiatric settings. The roles of the nurse as provider of care, communicator, teacher, manager, and member of a profession are expanded and provide the framework for clinical application and evaluation. Theoretical knowledge and principles are applied in the skills laboratory and clinical setting. Prerequisite: NUR1204C Concurrent with: HUN2201
Lecture Hours: 90, Lab Hours: 30, Clinical Hours: 135

NUR 2412C – LPN-ADN Transition: Maternal-Child Nursing
This course builds on previous health education courses, knowledge and skills. The role of the professional nurse as a provider of care to women, children and families in meeting their basic needs in a variety of settings is covered. Emphasis is placed on knowledge and skills relating to the pediatric population and the childbearing family. The role of the nurse as a provider of care, communicator, teacher, manager, and member of a profession provide the framework for clinical application and evaluation in pediatric and childbearing settings. Prerequisite: NUR1204C, DEP 2004
Lecture Hours: 45, Lab Hours: 30, Clinical Hours: 135

NUR 2801C – Nursing Leadership & Management
This course is designed to assist the graduating student in the transition to the role of the professional nurse. Management concepts, leadership skills, and the legal, ethical, and professional responsibilities of the registered nurse are stressed in the didactic component. The clinical experience in an acute care setting promotes the student’s transition to graduate with its emphasis on management of care and leadership, functional health patterns, professional behaviors, communication, clinical decision-making, caring interventions, teaching and learning, collaboration, and managing care activities in a broad, in-depth application of the nursing process in the clinical management of groups of patients. Prerequisite: To be completed in the last semester.
Lecture Hours: 60, Lab Hours: 30, Clinical Hours: 0
Physical Therapist Assistant
*(Semester 1, Semester 2, etc.) is to assist with identifying prerequisite courses and is not a part of the course title or description.

BSC 1085C – Human Anatomy & Physiology I *(Semester 1) 4 credits
This course introduces the structure and function of the human body. Topics include basic chemistry and cell biology, tissues, and the respiratory, integumentary, cardio-vascular, skeletal, muscular, nervous and sensory systems of the body. Medical terminology is emphasized. Laboratory exercises, coordinated with course content, including microscopic observation, experimentation, study of anatomical models, and dissection exercises are included in this course. Prerequisite(s): None
Lecture Hours: 45, Lab Hours: 30, Clinical Hours: 0

BSC 1086C – Human Anatomy & Physiology II *(Semester 2) 4 credits
This course is a continuation of the study of human anatomy and physiology begun in BSC 1085 C. The digestive, endocrine, lymphatic and immune digestive, urinary and reproductive systems are studied as well as blood, nutrition and metabolism, muscle and electrolyte balance, and acid-base balance. Laboratory exercises, coordinated with course content, including microscopic observation, experimentation, study of anatomical models, and dissection exercises are included in this course. Prerequisite(s): None
Lecture Hours: 45, Lab Hours: 30, Clinical Hours: 0

PTA 1200 Introduction to Physical Therapy *(Semester 1) 2 Credits
This course provides an introduction to the physical therapy profession, the role of the PTA, PT, and other health care providers. The content of this course includes an overview of the study of professional behaviors including: supporting the American Physical Therapy Association (APTA), upholding ethical practice, legal aspects, communication, maintaining patient confidentiality, and comprehension of the APTA Guide to Physical Therapist Practice. Students will learn the essential content for PTAs that will be practiced in the corresponding laboratory course: the basic principles of thermal agents, infection control, patient positioning, body mechanics, vital signs, proper transfer techniques, basic massage techniques, wheelchairs, and assistive devices. Prerequisite: None, Concurrent with: Concurrent with: BSC 1085C, PTA 1201, ENC 1101, MFG 1107
Lecture Hours: 45, Lab Hours: 30, Clinical Hours: 0

PTA1201 Introduction to Physical Therapy Lab *(Semester 1) 1 Credit
This laboratory course is designed to provide supplemental training to the Introduction to Physical Therapist Assistant course. The content will assist students as they practice previously taught lecture content. This course includes the opportunity to practice fundamental principles of the following: legal aspects of the profession, basic massage techniques, patient positioning, body mechanics, wheelchairs and assistive devices, effective communication, principles of thermal agents, infection control, basic emergency interventions, vital signs and proper transfer techniques. Prerequisite: None, Concurrent with: BSC 1085C, PTA 1200, ENC 1101, MFG 1107
Lab Hours: 30

PTA 1210 Anatomy and Kinesiology *(Semester 2) 3 Credits
This course is designed to build on knowledge acquired from previously taught courses. This includes applied movement concepts and normal functional movement behaviors as they relate to musculoskeletal anatomy and neuromuscular physiology. The content of this course includes the essential principles of movement, joint structure and function, range of motion and manual muscle testing, balance, posture, and gait. Prerequisites Semester 1 & Concurrent with: BSC 1086C, PTA, PTA 1211, PTA 1220 & PTA 1221
Lecture Hours: 45

PTA 1211 Anatomy and Kinesiology Lab 1 *(Semester 2) 1 Credit
This laboratory course will allow students to acquire hands-on experiences based on the course work in Functional Anatomy and Kinesiology. Students will practice principles of movement, surface palpation of joints and muscles, joint structure and function, goniometry measurement, manual muscles strength testing, gait, posture, and balance assessment. Prerequisites Semester 1 & Concurrent with: BSC 1086C, PTA 1210, PTA 1220 & PTA 1221
Lab Hours: 30
PTA 1220 Fundamentals of Treatment I  
(Semester 2)  
2 Credits
This course is designed to enable the student to build on the foundations learned in previous courses as they relate to orthopedic pathologies and interventions. They also will learn when to communicate with the supervising physical therapist about the need to adjust therapeutic interventions due to changes in the patient’s status. Students will be introduced to therapeutic exercises and gait training, while massage techniques, documentation, and effective communication strategies will be reinforced.
Prerequisites Semester 1 & Concurrent with:  BSC 1086C, PTA 1210, PTA 1211 & PTA 1221
Lecture Hours: 30

PTA 1221 Fundamentals of Treatment I Lab  
(Semester 2)  
1 Credit
In this laboratory course, students will explore the various types of therapeutic exercises used with orthopedic patients to improve range of motion, strength, flexibility, posture, stability, and reconditioning. The course is designed to develop clinical proficiency of gait assessment and soft tissue techniques in the orthopedic patient. Students also will have opportunity to apply effective documentation and communication skills.
Prerequisites Semester 1 & Concurrent with:  BSC 1086C, PTA 1210, PTA 1211 & PTA 1220
Lab Hours: 30

PTA 1300 Pathophysiology  
(Semester 3)  
2 Credits
This course provides an introduction to body functions including the anatomical, physiological, and pathologies of the body systems in relation to health and wellness. Students will learn about the etiology, manifestations, and treatment interventions of diseases in each system with emphasis on the musculoskeletal, nervous, and cardiopulmonary system related to the APTA Guide to Physical Therapy Practice.
Prerequisites Semester 1 and Semester 2 & Concurrent with:  PTA 1310, PTA 1311, PTA 1320, PTA 1321 and PTA 1350.
Lecture Hours: 30

PTA 1310 Therapeutic Modalities  
(Semester 3)  
2 Credits
This course is designed to introduce the physical therapist assistant student to the therapeutic modalities and agents used in physical therapy practice. It will guide students to develop effective clinical judgment as to when and how to consult the physical therapist as to the appropriateness of the therapeutic treatment. Therapeutic agents will be presented along with their rationale and indications for use, patient preparation, physiological effects and treatment parameters, as well as precautions and contraindications.
Prerequisites Semester 1 and Semester 2 & Concurrent with:  PTA 1300, PTA 1311, PTA 1320, PTA 1321 and PTA 1350.
Lecture Hours: 30

PTA 1311 Therapeutic Modalities Lab  
(Semester 3)  
1 Credit
This laboratory course will provide students with the practical procedures and protocol pertaining to the application of therapeutic modalities used in physical therapy practice. It is designed to develop a proficient clinical level of modality and agent application. Students will learn how to apply effective clinical judgment and integrate the rationale for use, patient preparation and treatment parameters, as well as physiological effects on the patient. This course also will reinforce the procedures of how to apply safe and effective treatment, and when the physical therapist should be consulted.
Prerequisites Semester 1 and Semester 2 & Concurrent with:  PTA 1300, PTA 1310, PTA 1320, PTA 1321 and PTA 1350.
Lab Hours: 30

PTA 1320 Fundamentals of Treatment II  
(Semester 3)  
4 Credits
This course is designed to teach the physical therapist assistant student about normal neuroanatomy, neurophysiology, cognition, mentation, and arousal through the lifespan. It will explore dysfunctions of the central and peripheral nervous systems, balance, posture, gait, cognition, expressive, receptive and perceptual communication. Students will identify clinical interventions as they relate to neurological disorders. This course also will reinforce effective documentation and PT with PTA communication skills.
Prerequisites Semester 1 and Semester 2 & Concurrent with:  PTA 1300, PTA 1310, PTA 1311, PTA 1321 and PTA 1350.
Lecture Hours: 60

PTA 1321 Fundamentals of Treatment II Lab  
(Semester 3)  
2 Credits
This laboratory course will allow students to integrate their academic knowledge with practice and discussion of therapeutic interventions, indications, and contraindications employed in the treatment of the neurologically involved patient. It will also reinforce effective clinical decision-making and effective communication skills.
Prerequisites Semester 1 and Semester 2 & Concurrent with:  PTA 1300, PTA 1310, PTA 1311, PTA 1320 and PTA 1350
Lab Hours: 60
PTA 1350 Physical Therapy Clinical Education I  
*(Semester 3)*  
4 Credits
This is an entry-level experience to the clinical setting for the Physical Therapist Assistant and provides the students with their initial supervised clinical contact with patients having physical dysfunctions. Students will be assigned to clinical sites for full-time observation and practice at their current level of physical therapy skills and procedures. They will have the opportunity to establish appropriate professional relationship with patients and members of the health care delivery team. They will also focus on improving their documentation skills.  
Prerequisites Semester 1 and Semester 2 & Concurrent with: PTA 1300, PTA 1310, PTA 1311, PTA 1320 and PTA 1321  
Clinical Hours: 180

PTA 1400 Pharmacology  
*(Semester 4)*  
2 Credits
This course is designed to introduce the student to the complex, but extremely important subject of pharmacology. It will present an overview of over-the-counter, herbal, and prescribed drugs. Topics will include basic theoretical principles as well as the study of the actions and effects of these drugs in physiological systems that can impact the delivery of effective and safe physical therapy interventions.  
Prerequisites Semester 1, Semester 2 and Semester 3 & Concurrent with: PTA 1410, PTA 1411, PTA 1420, PTA 1421 & PTA 1450  
Lecture Hours: 30

PTA 1410 Concepts in Physical Therapy I  
*(Semester 4)*  
2 Credits
In this course, students will incorporate the knowledge and skills gained from previous courses and apply them to the specialty areas of physical therapy practice. The areas include women’s health, oncology and hematological disorders, chronic pain and stress, connective and periarticular tissue disorders, multiple system headaches, facial deformity, temporal mandibular joint (TMJ) disorders, incontinence rehabilitation, mastectomy, and lymphedema management. This course also will include instruction on pediatric and geriatric considerations and psychological aspects of rehabilitation.  
Prerequisites Semester 1, Semester 2 and Semester 3 & Concurrent with: PTA 1400, PTA 1411, PTA 1420, PTA 1421 & PTA 1450  
Lecture Hours: 30

PTA 1411 Concepts in Physical Therapy I Lab  
*(Semester 4)*  
1 Credit
In this laboratory course, students will acquire skills based on the knowledge obtained in the concurrent didactic course and from previous courses. The student will explore and apply physical therapy skills used in sports rehabilitation, cardiovascular and pulmonary conditions, industrial and work rehabilitation, wound and burn care, amputation, prosthetics and orthotics and prescriptive wheelchairs.
Prerequisites Semester 1, Semester 2 and Semester 3 & Concurrent with: PTA 1400, PTA 1410, PTA 1411, PTA 1420 & PTA 1450  
Lab Hours: 30

PTA 1420 Fundamentals of Treatment III  
*(Semester 4)*  
5 Credits
This course is designed for students to explore techniques used in a variety of practice specialties. Students will learn about rehabilitation in the following areas: cardiopulmonary, sports, work hardening and industrial, amputee, burns and wounds. It includes prosthetics and orthotics, Pilates, wheelchair prescription, and psychological aspects of rehabilitation. This course also will reinforce knowledge obtained in prior course work as it relates to PT/PTA interaction.  
Prerequisites Semester 1, Semester 2 and Semester 3 & Concurrent with: PTA 1400, PTA 1410, PTA 1411, PTA 1421 & PTA 1450  
Lecture Hours: 75

PTA 1421 Fundamentals of Treatment III Lab  
*(Semester 4)*  
1 Credit
In this laboratory course students will acquire skills based on the knowledge obtained in the concurrent didactic course and from previous courses and will explore the techniques used in specialty areas of physical therapy practice. The student will explore and apply physical therapy skills used in sports rehabilitation, cardiovascular and pulmonary conditions, industrial and work rehabilitation, wound and burn care, amputation, prosthetics and orthotics and prescriptive wheelchairs.
Prerequisites Semester 1, Semester 2 and Semester 3 & Concurrent with: PTA 1400, PTA 1410, PTA 1411, PTA 1420 & PTA 1450  
Lab Hours: 30
PTA 1450 Physical Therapy Clinical Education II  
**Semester 4**  
4 Credits  
This course provides the students with the 2nd of three supervised clinical contact with patients having physical dysfunctions. It seeks to build on knowledge gained from their prior clinical experience as well as academic course work. It will allow students to assume a more active role in patient care and strengthen the PT/PTA interaction. Students will reinforce their documentation, communication and intervention skills.

Prerequisites: Semester 1, Semester 2 and Semester 3 & Concurrent with: PTA 1400, PTA 1410, PTA 1411, PTA 1420, PTA 1421.

Clinical Hours: 180

PTA 1510 Concepts in Physical Therapy II  
**Semester 5**  
2 Credits  
This course expands students’ knowledge and skills gained from previous courses, presenting aspects of physical therapy practice, ethics, professional conduct, scope of practice, along with reinforcing effective communication skills. The course also includes the important areas of academic and clinical competencies required for testing and licensure, scope of practice and about the physical therapist assistant’s professional organization.

Successful completion of all previous courses and Concurrent with: PTA 1511, PTA 1550 & HUM 2472

Lecture Hours: 30

PTA 1511 Concepts in Physical Therapy II Lab  
**Semester 5**  
1 Credit  
This laboratory course provides students with practice opportunities to apply knowledge and skills gained from previous courses including aspects of physical therapy practice, ethics and professional conduct, scope of practice along with effective communication skills. The student also will practice academic and clinical competencies required for testing and licensure, scope of practice, and the physical therapist assistant’s professional organization.

Successful completion of all previous courses and Concurrent with: PTA 1510, PTA 1550 & HUM 2472

Lab Hours: 30

PTA 1550 Physical Therapy Clinical Education III  
**Semester 5**  
6 Credits  
This clinical is the final of the three supervised clinical affiliations. It provides the student with an opportunity to function as entry-level physical therapist assistants applying their knowledge and skills developed in prior academic and clinical experiences. Students will further develop their documentation, communication and interpersonal relation skills.

Successful completion of all previous courses and Concurrent with: PTA 1510, PTA 1511 & HUM 2472

Clinical Hours: 270

Practical Nursing

*(Semester 1, Semester 2, etc.) is to assist with identifying prerequisite courses and is not a part of the course title or description.

PN1101 – Fundamentals of Nursing & Health  
**Semester 1**  
3 Credits  
The purpose of this course is to orient the student to Taylor College’s Practical Nursing program, its philosophy, conceptual framework and objectives. It prepares the student by teaching stress management techniques and study skills. The course content includes the history of nursing and the role of the practical nurse in the health care system and in health promotion. Communication skills, legal and ethical issues and employment skills are included as well as personal and professional growth through involvement in professional organizations and continuing educational activities. This course introduces the student to elements of the health science core concepts and health care delivery systems and trends. Safety measures, emergencies, and disease and wellness are discussed. Infection control is covered including blood borne diseases including HIV, AIDS and infection control procedures. The use of the computer in the health care setting, a review of basic math and employability skills are also incorporated into this course. Concurrent with: Prerequisite: None, PN1103, PN1104, PN1105 & PN1107

Lecture Hours: 45 Lab Hours: 0 Clinical Hours: 0

PN1103 – Anatomy & Physiology  
**Semester 1**  
8 Credits  
This course is designed to provide the student with a working knowledge of the normal structure and function of the human body and its components and an understanding of the relationships of the body systems in providing patient care. The organs, normal structure and function of the respiratory, cardio-vascular, muscular-skeletal, nervous, skin and sensory systems are covered as well as the terminology relating to each system. The content provides a basis for understanding deviations from normal body functions. Prerequisite: None, Concurrent with: PN1101, PN1104, PN1105 & PN1107

Lecture Hours: 120 Lab Hours: 0 Clinical Hours: 0
PN1104 – Nutrition  
(Semester 1)  
2 Credits  
This course provides an introduction to the principles of nutrition and their application to patient care. Nutrients, food groups, and nutritional needs throughout the life span are discussed as well as the effects of various nutrients on wellness and disease. Regional, cultural, and religious food patterns, preparation of a basic food plan and the use and maintenance of therapeutic diets are also covered. Prerequisite: None, Concurrent with: PN1101, PN1103, PN1105 & PN1107  
Lecture Hours: 30 Lab Hours: 0 Clinical Hours: 0

PN1105 - Nursing Skills  
(Semester 1)  
5 Credits  
This course introduces and builds on to the basic principles of nursing care as well as the physical comfort and safety functions provided by the practical nurse. The student will learn basic personal patient care skills. The student is provided with information related to the care of the surgical patient as well as the management, needs and nursing care of patients with common acute and chronic medical and surgical conditions. Care of the cancer patient is discussed including end of life issues. Nursing skills are practiced and competencies developed in the nursing skills laboratory. Prerequisite: None, Concurrent with: PN1101, PN1103, PN1104 & PN1107  
Lecture Hours: 45 Lab Hours: 60 Clinical Hours: 0

PN1107 - Pharmacology  
(Semester 1)  
3 Credits  
This course includes the study of a large body of medications including their therapeutic uses, characteristics, action, dosage, and side effects. The student is prepared to calculate dosages and administer medications safely by a variety of routes. Skills are practiced in the nursing lab. Prerequisite: None, Concurrent with: PN1101, PN1103, PN1104 & PN1105  
Lecture Hours: 45 Lab Hours: 0 Clinical Hours: 0

PN1108 – Growth & Development  
(Semester 2)  
4 Credits  
This course outlines the characteristics of human growth and development throughout the life span. A focus is placed on the theories specific to human development. The family’s role and influence is discussed. This course focuses on the dynamics of the aging process and includes common illnesses and health concerns of the older individual. The concerns of the aging adult and the management, needs and skills of caring for the geriatric client are discussed. Special emphasis is placed on promoting safety, teaching and following good health practices, as well as moving clients toward independence. The clinical experience provides the student with the opportunity to build on acquired knowledge and skills to apply nursing principles in meeting the needs of the aged and/or chronically ill client in a hospital or long term care setting. Prerequisite Semester 1: Concurrent with: PN1109  
Lecture Hours: 60 Lab Hours: 0 Clinical Hours: 0

PN1109 – Medical-Surgical Nursing I  
(Semester 2)  
15 Credits  
This course provides the student with information regarding common acute and chronic medical and surgical conditions relating to Psych, the cardio-vascular, musculoskeletal, nervous, skin and sensory systems, including the management, needs and specialized nursing care of patients with disorders of these systems. Common alterations in patients with psychological disorders are also discussed. Signs and symptoms, diagnostic tests, and treatment for each condition are covered. Principles of nutrition and pharmacology integrated throughout the course. The clinical experience provides the student with the opportunity to learn to plan, administer, and evaluate the nursing care of patients with complicated disorders of all systems of the body. Emphasis is placed on the development of confidence in performing nursing skills, skills in group planning for patient care, and the utilization of all available hospital and community resources for meeting the total needs of the patient. Prerequisite Semester 1: Concurrent with: PN1108  
Lecture Hours: 120 Lab Hours: 0 Clinical Hours: 315

PN1110 – Medical-Surgical Nursing II  
(Semester 3)  
13 Credits  
This course provides the student with information regarding common acute and chronic medical and surgical conditions relating to the respiratory, reproductive, urinary, digestive and endocrine systems including the management, needs and specialized nursing care of patients with these conditions. Common alterations in patients with psychological disorders are also discussed. Signs and symptoms, diagnostic tests, and treatment for each condition are covered. Principles of nutrition and pharmacology integrated throughout the course. The clinical experience provides the student with the opportunity to learn to plan, administer, and evaluate the nursing care of patients with complicated disorders of all systems of the body. Emphasis is placed on the development of confidence in performing nursing skills, skills in group planning for patient care, and the utilization of all available hospital and community resources for meeting the total needs of the patient. Prerequisite Semester 2: Concurrent with: PN1111 and PN1112  
Lecture Hours: 105 Lab Hours: 0 Clinical Hours: 270
PN1111 – Vocational Adjustment  
(Semester 3)  
1 Credit
This course prepares the practical nursing student for the transition from student to graduate nurse. Legal and ethical issues specific to practical nursing, leadership qualities, and employability skills are incorporated throughout the course. Topics include endorsement, use of placement services and nursing registries and alternative employment opportunities for practical nurses. Prerequisite Semester 2: Concurrent with: PN1110 and PN1112
Lecture Hours: 15 Lab Hours: 0 Clinical Hours: 0

PN1112 - Maternal Child  
(Semester 3)  
4 Credits
This course provides information regarding obstetrics, neonatology, and as such reviews and relates to normal growth and development throughout the life cycle. This course will provide information relating to normal pregnancy, labor and delivery, the puerperium and the normal newborn as well as common deviations from the normal. The specialized nursing skills to manage and care for the mother and infant throughout the maternity cycle are emphasized. The course also provides information regarding the general characteristics, needs and problems of the sick child and prepares the student to adapt nursing care for the pediatric patient. Signs and symptoms of common pediatric disorders and diseases are covered including nutritional requirements and diversion and recreational activities. Nursing skills are practiced in the skills lab and the clinical experience provides the student with the opportunity to build on acquired knowledge and skills, to apply nursing principles in meeting the needs of the pediatric patient, and participate in the health and wellness aspects of the patient and family. Prerequisite Semester 2: Concurrent with: PN1110 and PN1111
Lecture Hours: 0 Lab Hours: 60 Clinical Hours: 0

Medical Assisting
*(Semester 1, Semester 2, etc.) is to assist with identifying prerequisite courses and is not a part of the course title or description.

MA1001 – Introduction to Medical Assisting  
(Semester 1)  
6 Credits
This course is designed to teach the student the understanding of the healthcare delivery system and the functions of the team including developing active listening and observation skills and medical terminology and abbreviations. The student will also learn the importance of patient/client education regarding healthcare and includes CPR, HIV-Aids, leadership skills to manage others, develop goals, accomplish organizational tasks, understanding the importance of conflict resolution and how to apply mentoring skills necessary to manage others. Prerequisite: None, Concurrent with: MA1002 and MA2004
Lecture Hours: 90 Lab Hours: 0 Clinical Hours: 0

MA1002 – Managing Practice Finances  
(Semester 1)  
4 Credits
This course is designed to teach the student the basics of money management, developing a budget and monthly reconciliation of accounts. Prerequisite: None, Concurrent with: MA1001 and MA2004
Lecture Hours: 60 Lab Hours: 0 Clinical Hours: 0

MA2004 – Law & Ethics  
(Semester 1)  
6 Credits
This course is designed to teach the student the importance of professional ethics and legal responsibilities including labor laws, advanced directives, code of ethics, scope of practice, negligence, fraud and Bill of Rights. Prerequisite: None, Concurrent with: MA1001 and MA2002
Lecture Hours: 90 Lab Hours: 0 Clinical Hours: 0

MA2003 - Basics of Office Procedures  
(Semester 2)  
10 Credits
This course builds on the two previous courses as the student will develop a more in-depth understanding of the workplace environment. This course includes an understanding of EMR’s, clerical procedures, risk management, inventory, patient admissions, office policies and procedures, insurance including billing and collections. Prerequisite: Semester 2 & Concurrent with: PN1103
Lecture Hours: 90 Lab Hours: 60 Clinical Hours: 90

PN1103 - Anatomy & Physiology  
(Semester 2)  
8 Credits
This course is designed to provide the student with a working knowledge of the normal structure and function of the human body and its components and an understanding of the relationships of the body systems in providing patient care. The organs, normal structure and function of the respiratory, cardiovascular, muscular-skeletal, nervous, skin and sensory systems are covered as well as the terminology relating to each system. The content provides a basis for understanding deviations from normal body functions. Prerequisite: Semester 2 & Concurrent with: MA2003
Lecture Hours: 120 Lab Hours: 0 Clinical Hours: 0
MA2005 – Physical Examination (Semester 3) 8 Credits
Upon completion of this course, the student should be able to evaluate the human body for optimal physical function and signs of illness or disease through proper technique of assessing all of the major body systems. Students will concentrate on encouraging good health practices with a focus on healing techniques and identifying the importance of healthy lifestyle traits such as managing stress, good nutrition and performing physical activity. Prerequisite: Semester 1 and Semester 2 & Concurrent with: MA2006
Lecture Hours: 120 Lab Hours: 0 Clinical Hours: 0

MA2006 – Introduction to Phlebotomy (Semester 3) 12 Credits
This course is designed to teach the necessary skills and knowledge required to perform successful phlebotomy services. A major focus will be identifying the main superficial veins used in performing venipuncture, and learning the structure of the body with an emphasis on the circulatory system, HIV/AIDS, sanitation techniques and OSHA requirements. Students will learn required medical terminology, master the function of various blood components, identify appropriate equipment necessary for phlebotomists and perform venipunctures in laboratory and clinical settings. This course offers a classroom lecture with an interactive laboratory component imbedded into the course. Prerequisite: Semester 1 and Semester 2 & Concurrent with: MA2005
Lecture Hours: 120 Lab Hours: 90 Clinical Hours: 45

MA2007 – Understanding EKG (Semester 4) 5 Credits
Upon completion of this course, the student should be able to work with patients during EKG procedures and make the patients comfortable during the process. Training will prepare students to understand the cardiopulmonary system, how to operate EKG equipment, identify an abnormal sinus rhythm and recognize a cardiac emergency as seen on the EKG. This course offers a classroom Lecture with interactive laboratory component imbedded into the course. Prerequisite: Semester 1, Semester 2 and Semester 3 & Concurrent with: MA2008, MA2009 and MA2010
Lecture Hours: 60 Lab Hours: 30 Clinical Hours: 0

MA2008 – Medical Procedures (Semester 4) 6 Credits
Upon completion of this course the student will understand the importance of preparing for crisis situations and events that can occur in the workplace. Skills will be taught focusing on the workplace along with safety compliance and becoming familiar with an action plan for the individual, employees and patients involved. A strong emphasis will be placed on skill building while providing an interactive lecture and laboratory component. This course offers a classroom Lecture with interactive laboratory component imbedded into the course. Prerequisite: Semester 1, Semester 2 and Semester 3 & Concurrent with: MA2007, MA2009 and MA2010
Lecture Hours: 60 Lab Hours: 30 Clinical Hours: 45

MA2009 – Pharmacology (Semester 4) 4 Credits
This course is designed to teach the student in basic pharmacology, abbreviations and terminology, including dosage calculation, prepare and administer parenteral medications, prepare and administer intramuscular injections and legal and ethical standards. Prerequisite: Semester 1, Semester 2 and Semester 3 & Concurrent with: MA2007, MA2008 and MA2010
Lecture Hours: 60 Lab Hours: 0 Clinical Hours: 0

MA2010 – Life Skills Development (Semester 4) 3 Credits
Upon completion of this course, the student should be able to successfully identify opportunities and plans for career placement as a Medical Assistant, as well as demonstrate mastery-level skills of job interview techniques, creating a resume and conducting job searches. Identify the skills required, including licensure and certification, for different employment by identifying areas of suitable employment that will match career goals. Prerequisite: Semester 1, Semester 2 and Semester 3 & Concurrent with: MA2007, MA2008 and MA2009
Lecture Hours: 45 Lab Hours: 0 Clinical Hours: 0
Pharmacy Technician

*(Semester 1, Semester 2, etc.) is to assist with identifying prerequisite courses and is not a part of the course title or description.

PT1001 – Introduction to Pharmacy & Health Care  (Semester 1)  6 Credits
This module orients students to the work of pharmacy technicians and the context in which technicians' work is performed. Students learn the concept of direct patient care and technicians' general role in its delivery, with particular emphasis on the complementary roles of pharmacists and technicians. They gain an understanding of the range of current direct patient care delivery systems and of medication distribution systems including the step-by-step processes in which the technician participates. They are introduced to the profound influence that medication laws, standards, and regulations have on practice. Finally, they are introduced to the concept of quality assurance and its procedures. Prerequisite: None, Concurrent with: PT1003
Lecture Hours: 90 Lab Hours: 0 Clinical: 0

PT1002 – Legal & Ethical Responsibilities  (Semester 2)  3 Credits
In this module the student should be able to identify the medical and legal considerations in the field of pharmacy. It includes the current national, Florida law and rules, Federal law and administrative rules as they relate to the practice of the pharmacy technician, the need for accurate documentation and record keeping, patient’s Bill of Rights, confidentiality, and regulations for handling controlled substances. To distinguish between ethics and law, and introduce them to the standards of conduct that are required from medical professionals. 59 Prerequisite: None
Lecture Hours: 45 Lab Hours: 0 Clinical: 0

PT1003 – Concepts of Wellness & the Disease Process I  (Semester 1)  10 Credits
In this module students learn the use and side effects of prescription medications, nonprescription medications, and alternative therapies commonly used to treat diseases affecting the various systems including psychiatric disorders. To achieve this they first master an understanding of basic anatomy and physiology of the Nervous, Skeletal, Muscular, Cardiovascular, Respiratory, and Gastrointestinal System. They then learn the therapeutic effects of prescription medications, nonprescription medications, and alternative therapies commonly used to treat diseases affecting the system, including psychiatric disorders, and their adverse effects. For each medication studied they learn the brand and generic name, standard pronunciation, and dosage forms, and routes of administration. They also learn abbreviations for terms associated with use of medication therapy for common diseases affecting the various systems and psychiatric disorders. This first in the series of modules on therapeutic agents describes the role of the FDA in herbal products and dietary supplements. Prerequisite: None, Concurrent with: PT1001
Lecture Hours: 150 Lab Hours: 0 Clinical: 0

PT1004 - Concepts of Wellness & the Disease Process II  (Semester 2)  9 Credits
In this module, students learn the use and side effects of prescription medications, nonprescription medications, and alternative therapies commonly used to treat diseases affecting the systems. To achieve this they first master an understanding of basic anatomy and physiology of the Reproductive, Renal, Immune and Hematologic Systems. The student will also learn about the Eyes, Ears, Nose, and Throat. They then learn the therapeutic effects of prescription medications, nonprescription medications, and alternative therapies commonly used to treat diseases affecting the systems and their adverse effects. For each medication studied they learn the brand and generic name, standard pronunciation, and dosage forms, and routes of administration. They also learn abbreviations for terms associated with use of medication therapy for common diseases affecting the various systems. Prerequisite: PT1003
Lecture Hours: 135 Lab Hours: 0 Clinical: 0

PT1005 – Understanding Pharmacology  (Semester 3)  15 Credits
In this module students learn to assist the pharmacist in collecting, organizing, and evaluating information for direct patient care, medication use review, and departmental management. They first review how state laws and regulations determine what activities associated with collection of patient-specific information can be delegated by the pharmacist to technicians. Students learn to secure information from the patient medical chart, record, and patient profile. They also learn to interview patients, their representatives, caregivers, and health care professionals for needed information. Students learn to use the various forms of technology currently in use for storing, accessing, and recording pharmacy data. Communications skills and the exercise of a caring attitude are emphasized. Students learn the need to adapt direct patient care to meet the needs of diversity. Finally, students learn confidentiality issues regarding patient-specific information. Prerequisite: PT1001, PT1003 and PT1004
Lecture Hours: 165 Lab Hours: 120 Clinical: 0
PT1006 – Infection Control/Emergency Situations  
(Semester 4)  
7 Credits
This course covers all of the didactic composition of the following topics: Infection control, blood borne diseases, safety and security procedures and emergency situations. It covers concepts of asepsis, bio-hazardous materials, OSHA regulations, HIV/AIDS transmission, monitoring vital signs, Basic Life Support (CPR), First Aid. At the completion of this course the student will receive HIV/AIDS, OSHA, First Aid, and HIPAA certificates. This course offers a classroom lecture with interactive laboratory component imbedded into the course. Prerequisites: Semester 1, Semester 2 and Semester 3, Concurrent with: PT1007 and PT1008  
Lecture Hours: 60 Lab Hours: 90 Clinical: 0

PT1007 – Workplace Environment  
(Semester 4)  
3 Credits
In this module students are exposed to a variety of issues which touch on the attitudes, values and beliefs of successful pharmacy technicians. They learn pharmacy ethics, the need to take personal responsibility for delivering direct patient care, and the obligation to stay current with advances in therapy. They learn about projecting an image appropriate to the profession of pharmacy and the necessity to develop effective interpersonal relationships with other health care professionals. Students also learn skills for problem solving and work management. Prerequisites: Semester 1, Semester 2 and Semester 3, Concurrent with: PT1006 and PT1008
Lecture Hours: 45 Lab Hours: 0 Clinical: 0

PT1008 – Clinical Externship  
(Semester 4)  
4 Credits
In this module students practice skills developed in the didactic and laboratory phases of their training in the practice environment of a community or outpatient pharmacy that does not offer infusion services. The objectives listed below represent the entire scope of activities that might be performed by the student at a particular community or outpatient pharmacy that does not offer infusion services and evaluated by the preceptor. Prerequisites: Semester 1, Semester 2 and Semester 3, Concurrent with: PT1006 and PT1007
Lecture Hours: 15 Lab Hours: 0 Clinical: 135
