Graduation Rate Calculation
Student who completed within normal time: The rates are calculated based on students who graduated within 100% of the length of their program.

Students who completed within 150% of normal time: The rates are calculated based on students who graduated within 1.5 times the program timeframe published in the school catalog. For example, if a student completed a 12 month program in 18 months, that would constitute completion within 150% of the program length.

Both the Professional Nursing and Physical Therapist Assistant programs have not had any on-time graduation rates when this went to print.
Completion Rate

Completion rates are based on graduates between the period 7/1/2011 - 6/30/2012.
